## **Rational Strength Of English Law:**

**The Rational Strength of English Law** Frederick Henry Lawson, 1951 This book consists of a series of four lectures delivered under the auspices of the Hamlyn Trust It is a comparison of English law with other systems Within its compass it would be impossible to cover the whole field of law and the author has therefore chosen to deal fairly fully with selected topics of exceptional importance The author is a Professor of Comparative Law and in comparing the English and other systems he has sought to show that contrary to a widespread opinion our law is orderly and rational although not reduced to codified form In the last lecture the author closes with a summary of his conclusions which are of great interest In the law of contract he refers to the law of Scotland and the United States to their advantage in some respects in comparison with English law But he has a high regard for the English law of torts which he thinks most strongly justifies the title of his lectures *The Rational Strength of English Law* *Principles of the English Law of Obligations* Andrew Burrows, 2016-12-01

*Principles of the English Law of Obligations* provides students with a high quality overview of this key area of English law Drawing together updated chapters from the third edition of English Private Law the subjects covered include contract tort and equitable wrongs unjust enrichment and remedies Written by a team of acknowledged experts the chapters give a clear simple and accurate overview of the guiding principles and rules of the English law of obligations including contract and tort which are compulsory subjects for law degrees and on professional courses Whether looking for an accessible conceptual introduction to the area or a handy revision reference students will find this book invaluable **New Perspectives for a**

**Foucault and Family Relations** Malcolm Voyce, 2019-05-14 Foucault and Family Relations Governing from a Distance in Australia analyzes how notions of property ownership were instrumental in maintaining family stability and continuity in rural Australia outlining how inheritance and divorce laws functioned to govern the internal relationships of families to assist

the state to rule from a distance Using a selection of Foucault s ideas on the family sexuality race space and economics this books shows how property operated as a disciplinary device which was underpinned by technical ideas such as surveying and cartography This book uses legal judgments as a form of ethnography to show how property as a socio technical device allowed a degree of local freedom for owners This aspect of property allowed the state to stimulate ideas of local freedom to assist in ruling from a distance demonstrating how the rural family as a domestic unit became a key field of intervention for the state as the family represented a bridge to larger relationships of power

**Contract Termination in International and Domestic Trade** Bashayer Al-Mukhaizeem,2024-09-25 This book highlights the right to terminate a contract yielding invaluable insights to enable policymakers and legal practitioners to facilitate international trade In the modern landscape of globalised trade the imperative of a harmonised legal framework of contract law capable of fostering stability and trust in cross border trade has never been more pronounced This is represented in the United Nations Convention on Contracts for the International Sale of Goods CISG providing rules that can be known understood and abided by globally This book focuses on the termination of contracts one of the harshest remedies when a sale of goods contract is breached by the seller Breaches by the seller dealt in this book are confined to breaches of contractual description delivery time and quality of goods which are the most common violations of sale of goods contracts This book scrutinises the methods adopted for challenging or facilitating contractual termination by CISG as a transnational law as well as the Sale of Goods Act 1979 SGA and Kuwaiti law KLaw both of which are national laws of non contracting states of CISG This study also draws attention to lacunae and practical issues focusing on critical analyses of law and cases and recognises the adopted themes underlying each law to find the degree of their legal clarity and the threshold upon which termination can be granted This comprehensive analysis also provides inspiration for beneficial changes by weighing the pros and cons of each system The book will be of interest to practitioners students and scholars in the fields of contract law trade law commercial law and international law

The Logic of Choice Gidon Gottlieb,2019-10-30 Originally published in 1968 This is a critical study of the concept of rule featuring in law ethics and much philosophical analysis which the author uses to investigate the concept of rationality The author indicates in what manner the modes of reasoning involved in reliance upon rules are unique and in what fashion they provide an alternative both to the modes of logico mathematical

reasoning and to the modes of scientific reasoning This prepares the groundwork for a methodology meeting the requirements of the fields using rules such as law and ethics which could be significant for communications theory and the use of computers in normative fields Other substantive issues related to the mainstream of legal philosophy are discussed theories of interpretation the notion of purpose and the requirements of principled decision making The book utilizes examples drawn from English and American legal decisions to suggest how the positions of legal positivism and of natural law are equally artificial and misleading

Globalisation and Legal Theory William Twining, 2000-03 The text makes the case for a revival of general jurisprudence in response to globalisation

**European Contract Law** Bénédicte Fauvarque-Cosson, Denis Mazeaud, 2009-04-27 The Association Henri Capitant des Amis de la Culture Juridique Française and the Société de législation comparée joined the academic network on European Contract Law in 2005 to work on the elaboration of a common terminology and on guiding principles as well as to propose a revised version of the Principles of European Contract Law PECL The results of this work were sent to the European Commission and have already been published in French The English translation is now being published by Sellier

This work could contribute to the wider European project The part on the guiding principles could be a component of the CFR in the form of black letter model rules or recitals The part on terminology is in itself useful for the elaboration of the final various linguistic versions of the CFR It finds its place within the materials which will accompany the model rules Last but by no means least the revised version of the PECL should be considered by the European institutions as an alternative set of model rules on contract law

**The Acquisition of Africa (1870-1914)** Mieke van der Linden,2016-10-05 Over recent decades the responsibility for the past actions of the European colonial powers in relation to their former colonies has been subject to a lively debate In this book the question of the responsibility under international law of former colonial States is addressed Such a legal responsibility would presuppose the violation of the international law that was applicable at the time of colonization In the Scramble for Africa during the Age of New Imperialism 1870 1914 European States and non State actors mainly used cession and protectorate treaties to acquire territorial sovereignty imperium and property rights over land dominium The question is raised whether Europeans did or did not on a systematic scale breach these treaties in the context of the acquisition of territory and the expansion of empire mainly through extending sovereignty rights and subsequently intervening in the internal affairs of African political entities **International Encyclopedia of Comparative Law** Viktor Knapp,1983
