

Rationality and Power

Bent Flyvbjerg

In Scott Cambell and Susan S. Fainstein, eds., *Readings in Planning Theory*, second edition. Oxford: Blackwell, 2003, pp. 318-329. Originally from Bent Flyvbjerg, *Rationality and Power: Democracy in Practice*. University of Chicago Press, 1998, pp. 225-236.

Democratic contrivances are quarantine measures against that ancient plague, the lust for power: as such, they are very necessary and very boring. *Friedrich Nietzsche*

Aalborg as Metaphor

The Aalborg Project may be interpreted as a metaphor of modern politics, modern administration and planning, and of modernity itself. The basic idea of the project was comprehensive, coherent, and innovative, and it was based on rational and democratic argument. During implementation, however, when idea met reality, the play of Machiavellian princes, Nietzschean will to power, and Foucauldian rationality-as-rationalization resulted in the fragmentation of the project. It disintegrated into a large number of disjointed subprojects, many of which had unintended, unanticipated, and undemocratic consequences. The grand, unifying, and prize-winning policy and plan degenerated into [a] string of petty incidents. . . . Planners, administrators, and politicians thought that if they believed in their project hard enough, rationality would emerge victorious; they were wrong. The Aalborg Project, designed to substantially restructure and democratically improve the downtown environment, was transformed by power and *Realrationalität* into environmental degradation and social distortion. Institutions that were supposed to represent what they themselves call the "public interest" were revealed to be deeply embedded in the hidden exercise of power and the protection of special interests. This is the story of modernity and democracy in practice, a story repeated all too often for comfort for a democrat. The problems with the Aalborg Project do not derive from Aalborg being especially plagued by corrupt policies or incompetent planning and administration.
