Life Woven with Song Nora Marks Dauenhauer,2022-03-15 The Tlingit Indians of southeastern Alaska are known for their totem poles Chilkat blankets and ocean going canoes Nora Marks Dauenhauer is a cultural emissary of her people and now tells the story of her own life within the context of her community s Life Woven with Song re creates in written language the oral tradition of the

Tlingit people as it records memories of Dauenhauer's heritage of older relatives and Tlingit elders of trolling for salmon and preparing food in the dryfish camps of making a living by working in canneries. She explores these recurring themes of food and land, salmon and rainforest from changing perspectives as a child, a mother, and a grandmother and through a variety of literary forms. In prose, Dauenhauer presents stories such as *Egg Boat*, the tale of a twelve-year-old girl fishing the North Pacific for the first time alone, and an autobiographical piece that reveals much about Tlingit lifeways. Then, in a section of short lyrical poems, she offers crystalline tributes to her land and people. In a concluding selection of plays, Dauenhauer presents three Raven stories that were adapted as stage plays from oral versions told in Tlingit by three storytellers of her community. These plays were commissioned by the Naa Kahidi Theater and have been performed throughout America and Europe. They take the form of a storyteller delivering a narrative while other members of the cast act and dance in masks and costumes. Collectively, Dauenhauer's writings form an autoethnography offering new insight into how the Tlingit have been affected by modernization and how Native American culture perseveres in the face of change. Despite the hardships her people have seen, this woman affirms the goodness of life as found in family and community in daily work and play and in tribal traditions.

Akio & The Dream World Carl A. Snook, 2020-09-30 e I wish I had never taken that bus. I just want to get home. e e Akio, my boy, just remember what saves a man is to take a step, then another step. It is always the same step, but it gets you to where you are. You took that first step on to that bus, and it led you here. Now all you have to do is keep on stepping, and you'll find yourself to be somewhere else. Life is a journey, Akio, and we are the ones who choose where to step next. e Take a journey into the deep unknown of imagination. Join Akio as he explores a world thrust upon him where, in a matter of minutes, even a Dream world is turned upside down and teaches our young hero that not everything is always how it seems. To my mother, may you now rest safe in my dreams. Carl Snook has been a student of the arts and entertainments for many years and is a film and movie connoisseur. A real zest for imagination and a love for a good story, he believed he had an abundance of stories that could captivate others. Writing the novel served as therapy after losing his mother early in 2013. He set out with determination to share his story and mind with the world, dedicating it in her memory. From the county of Buckinghamshire in England, he lives with his older brother and younger sister.

Uranus Ben Bova, 2025-09-23 Ben Bova, author of *Earth*, continues his exploration of the future of a human settled Solar System with the science fiction action adventure *Uranus*, the first of his Outer Planets trilogy. On a privately financed orbital habitat above the planet Uranus, political idealism conflicts with pragmatic and illegal methods of financing. Add a scientist who has funding to launch a probe deep into Uranus's ocean depths to search for signs of life, and you have a three-way struggle for control. Humans can't live on the gas giants, making instead a life in orbit. Kyle Umber, a religious idealist, has built Haven, a sanctuary above the distant planet Uranus. He invites the tired, the sick, the poor of Earth to his orbital retreat where men and women can find spiritual peace and refuge from the world. The billionaire who financed Haven, however, has his own designs beyond the reach of the

laws of the inner planets Haven could become the center for an interplanetary web of narcotics prostitution even hunting human prey Meanwhile a scientist has gotten funding from the Inner Planets to drop remote probes into the oceans of Uranus in search of life He brings money and prestige but he also brings journalists and government oversight to Haven And they can't have that At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied
