In the Company of Crows and Ravens John M. Marzluff, Tony Angell, 2008-10-01 Crows and people share similar traits and social strategies To a surprising extent to know the crow is to know ourselves from the Preface From the cave walls at Lascaux to the last painting by Van Gogh from the works of Shakespeare to those of Mark Twain there is clear evidence that crows and ravens influence human culture Yet this influence is not unidirectional say the authors of this fascinating book people profoundly influence crow culture ecology and evolution as well John Marzluff and Tony Angell examine the often surprising ways that crows and humans interact The authors contend that those interactions reflect a process of cultural coevolution They offer a challenging new view of the human crow dynamic a view that may change our thinking not only about crows but also about ourselves Featuring more than 100 original drawings the book takes a close look at the influences people have had on the lives of crows throughout history and at the significant ways crows have altered human lives In the Company of Crows and Ravens illuminates the entwined histories of crows and people and concludes with an intriguing discussion of the crow human relationship and how our attitudes toward crows may affect our cultural trajectory

Our Wild Calling Richard Louv, 2020-11-10 A book that offers hope The New York Times Book Review A wondrous tapestry Carl Safina author of Beyond Words What Animals Think and Feel Audubon Medal winner Richard Louv s landmark book Last Child in the Woods inspired an international movement to connect children and nature Now he redefines the future of human animal coexistence

In Our Wild Calling Louv interviews researchers theologians wildlife experts indigenous healers psychologists and others to show how people are connecting with animals in ancient and new ways and how this serves as an antidote to the growing epidemic of human loneliness how dogs can teach children ethical behavior how animal assisted therapy may yet transform the mental health field and what role the human animal relationship plays in our spiritual health He reports on wildlife relocation and on how the growing populations of wild species in urban areas are blurring the lines between domestic and wild animals Our Wild Calling makes the case for protecting promoting and creating a sustainable and shared habitat for all creatures not out of fear but out of love Includes a new interview with the author discussion questions and a resource guide
