**Ray Moore** Ray Moore, Sharon A. Boswell, 1999      The Canwell Files M. Kienholz, 2012-09-21 Court certified expert on Soviet Communism and controversial figure in the Pacific Northwest Albert Canwell born in Spokane Washington followed his father one time Pinkerton detective with his brother Carl Spokane Public Safety Commissioner and nephew David CIA into law enforcement He married the daughter of a prominent Harvard educated surgeon and raised six children at Montvale Farms on the Little Spokane River Elected Washington State representative Canwell was aptly chosen to investigate the notorious Democratic Capitol Club and served as appointed chairman of the states un American activities committee After unsuccessful campaigns for Congress Canwell established the American Intelligence Service providing material from his personal files to private parties businesses and government agencies FDA FBI INS His life effective activism and network security experts J B Matthews Louis Budenz and Whittaker Chambers legislators and U S presidents were a lightning rod for approbation and condemnation by friends and enemies Repeated smear campaigns professional agitation and uninformed pseudohistorians left a wake of disinformation and historical inaccuracies about his career and data contained in his files As political historian and biographer Kienholz shares the contents of his files and corrects a web of distortions and propaganda promoted by adherents to Soviet Communism      **Conversations with Ray Bradbury** Ray Bradbury, 2004 Presents a collection of interviews with twentieth century novelist short story writer and playwright Ray Bradbury that covers five decades of his life and works      *The Kennedy Family and the Story of Mental Retardation* Edward Shorter, 2000 According to Edward Shorter just forty years ago the institutions housing people with mental retardation MR had become a national scandal The mentally retarded who lived at home were largely isolated and a source of family shame Although some social stigma still attaches to the people with developmental disabilities a range of conditions including what until recently was called mental retardation they now actively participate in our society and are entitled by law to educational social and medical services The immense improvement in their daily lives and life chances came about in no small part because affected families mobilized for change but also because the Kennedy family made mental retardation its single great cause Long a generous benefactor of MR related organizations Joseph P Kennedy made MR the special charitable interest of the family foundation he set up in the 1950s Although he gave all of his children official roles he involved his daughter Eunice in performing its actual work identifying appropriate recipients of awards and organizing the foundation s activities With unique access to family and foundation papers Shorter brings to light the Kennedy family s strong commitment to public service showing that Rose and Joe taught their children by precept and example that their wealth and status obligated them to perform good works Their parents expected each of them to apply their considerable energies to making a difference Eunice Kennedy Shriver took up that charge and focused her organizational and rhetorical talents on putting MR on the federal policy agenda As a sister of the President of the United States she had access to the most powerful people in the

country and drew their attention to the desperate situation of families affected by mental retardation Her efforts made an enormous difference resulting in unprecedented public attention to MR and new approaches to coordinating medical and social services Along with her husband R Sargent Shriver she made the Special Olympics a international annual event in order to encourage people with mental retardation to develop their skills and discover the joy of achievement She emerges from these pages as a remarkable and dedicated advocate for people with developmental disabilities Shorter s account of mental retardation presents an unfamiliar view of the Kennedy family and adds a significant chapter to the history of disability in this country Author note Edward Shorter is a Professor at the University of Toronto where he holds the Hannah Chair in the History of Medicine He is the author of A History of Psychiatry from the Era of the Asylum to the Age of Prozac as well as many other books in the fields of history and medicine      Echoes of Exclusion and Resistance Laura J.

Arata,Thomas E. Marceau,2021-11-01 Like the rest of the American West the mid Columbia region has always been diverse Its history mirrors common multiracial narratives but with important nuances In the late 1880s Chinese railroad workers were segregated to East Pasco a practice that later extended to all non whites and continued for decades Kennewick residents became openly proud of their status as a lily white town In Echoes of Exclusion and Resistance the third Hanford Histories volume four scholars Laura Arata Robert Bauman Robert Franklin and Thomas E Marceau draw from Hanford History Project Atomic Heritage Foundation and Afro American Community Cultural and Educational Society oral histories to focus on the experiences of non white groups whose lives were deeply impacted by the Hanford Site Linked in ways they likely could not know each group resisted the segregation and discrimination they encountered and in the process challenged the region s dominant racial norms The Wanapum evicted by Hanford Nuclear Reservation construction relate stories of their people as well as their responses to dislocation and forced evacuation Unable to interact with the ancient landscapes and utilize the natural resources of their traditional lands they suffered painful irretrievable losses Early arrivals to the town of Pasco the Yamauchi family built the American dream including successful businesses and highly educated children only to have their aspirations crushed by World War II Japanese American internment Thousands of African Americans migrated to the area for wartime jobs and discovered rampant segregation Through negotiations demonstrations and protests they fought the region s ingrained racial disparity During the early years of the Cold War Black women mostly from East Texas also relocated to work at Hanford They offer a unique perspective on employment discrimination family and faith      **From 33rd Street to the Camden Yards: an Oral History of the Baltimore Orioles** John Eisenberg,2002-02 In From 33rd Street to Camden Yards John Eisenberg a critically acclaimed sports writer and longtime sports columnist for the Baltimore Sun brings to life the epic saga of baseball s winningest franchise from 1960 97 using the best sources possible the voices of the players managers coaches owners front office officials and others who have helped make the Orioles a secular religion in a city that calls itself Baseball City USA Relying on storytelling flair persistent research and an eye for detail that marked his much

praised football memoir *Cotton Bowl Days* and utilizing knowledge and insights culled from fifteen years of award winning reporting Eisenberg turns dozens of hours of interviews with Hall of Famers and reserve infielders alike into a vivid fast moving oral history the first ever of the Orioles John Eisenberg has had exclusive access to such star Orioles as Earl Weaver Ken Singleton Cal Ripken Jr Jim Palmer and Frank Robinson as well as to current owner Peter Angelos In total he interviewed over 90 individuals for this book making *From 33rd Street to Camden Yards* a rich rewarding book that defines the Orioles and the Orioles experience

**Evolution Made to Order** Helen Anne, 2016-11-11 Plant breeders have long sought technologies to extend human control over nature Early in the twentieth century this led some to experiment with startlingly strange tools like x ray machines chromosome altering chemicals and radioactive elements Contemporary reports celebrated these mutation inducing methods as ways of generating variation in plants on demand Speeding up evolution they imagined would allow breeders to genetically engineer crops and flowers to order Creating a new food crop or garden flower would soon be as straightforward as innovating any other modern industrial product In *Evolution Made to Order* Helen Anne Curry traces the history of America's pursuit of tools that could intervene in evolution An immersive journey through the scientific and social worlds of midcentury genetics and plant breeding and a compelling exploration of American cultures of innovation *Evolution Made to Order* provides vital historical context for current worldwide ethical and policy debates over genetic engineering

*The Labor of Luck* Jeff Sallaz, 2009-10-02 In this gripping ethnography Jeffrey J Sallaz goes behind the scenes of the global casino industry to investigate the radically different worlds of work and leisure he found in identically designed casinos in the United States and South Africa Seamlessly weaving political and economic history with his own personal experience Sallaz provides a riveting account of two years spent working among both countries casino dealers pit bosses and politicians While the popular imagination sees the Nevada casino as a hedonistic world of consumption *The Labor of Luck* shows that the Vegas experience is made possible only through a variety of systems regulating labor capital and consumers and that because of these complex dynamics the Vegas casino cannot be seamlessly picked up and replicated elsewhere Sallaz's fresh and path breaking approach reveals how neo liberal versus post colonial forms of governance produce divergent worlds at the tables and how politics profits and pleasure have come together to shape everyday life in the new economy

**A Directory of Oral History Interviews Related to the Federal Courts** United States. Federal Judicial History Office, 1992 *John Spellman* John Charles Hughes, 2013 *Prologue*, 1975 *Across the Aisles* Jeff Burlingame, 2013 Publisher description Raised by a Kelso widow during the Great Depression Sid Snyder relied on his hard work to overcome his humble beginnings and become an enterprising grocery store owner pioneering bank founder successful real estate investor and one of the most respected lawmakers in Washington state history He began his Capitol career in 1949 with a patronage job as an elevator operator and retired as Senate majority leader in 2002 the same year he was honored as the national legislator of the year Today two roads are named after Snyder one in Olympia leading into the

Capitol Campus and one in his hometown of Long Beach      **The Long Arm of Moore's Law** Cyrus C. M. Mody, 2016-12-02

How beginning in the mid 1960s the US semiconductor industry helped shape changes in American science including a new orientation to the short term and the commercial Since the mid 1960s American science has undergone significant changes in the way it is organized funded and practiced These changes include the decline of basic research by corporations a new orientation toward the short term and the commercial with pressure on universities and government labs to participate in the market and the promotion of interdisciplinarity In this book Cyrus Mody argues that the changes in American science that began in the 1960s co evolved with and were shaped by the needs of the civilianized US semiconductor industry In 1965 Gordon Moore declared that the most profitable number of circuit components that can be crammed on a single silicon chip doubles every year Mody views Moore s Law less as prediction than as self fulfilling prophecy pointing to the enormous investments of capital people and institutions the semiconductor industry required the long arm of Moore s Law that helped shape all of science Mody offers a series of case studies in microelectronics that illustrate the reach of Moore s Law He describes the pressures on Stanford University s electrical engineers during the Vietnam era IBM s exploration of alternatives to semiconductor technology the emergence of consortia to integrate research across disciplines and universities and the interwoven development of the the molecular electronics community and associated academic institutions as the vision of a molecular computer informed the restructuring of research programs      *American Book Publishing Record*, 2000-07

**A Guide to Manuscripts in the Presidential Libraries** Dennis A. Burton, James Berton Rhoads, Raymond Smock, 1985      **The New Urban Park** Hal Rothman, 2004 From Yellowstone to the Great Smoky Mountains America s national parks are sprawling tracts of serenity most of them carved out of public land for recreation and preservation around the turn of the last century America has changed dramatically since then and so has its conceptions of what parkland ought to be In this book one of our premier environmental historians looks at the new phenomenon of urban parks focusing on San Francisco s Golden Gate National Recreation Area as a prototype for the twenty first century Cobbled together from public and private lands in a politically charged arena the GGNRA represents a new direction for parks as it highlights the long standing tension within the National Park Service between preservation and recreation Long a center of conservation the Bay Area was well positioned for such an innovative concept Writing with insight and wit Rothman reveals the many complex challenges that local leaders politicians and the NPS faced as they attempted to administer sites in this area He tells how Representative Phillip Burton guided a comprehensive bill through Congress to establish the park and how he and others expanded the acreage of the GGNRA redefined its mission to the public forged an identity for interconnected parks and struggled against formidable odds to obtain the San Francisco Presidio and convert it into a national park Engagingly written *The New Urban Park* offers a balanced examination of grassroots politics and its effect on municipal state and federal policy While most national parks dominate the economies of their regions GGNRA was from the start tied to the multifaceted needs

of its public and political constituents including neighborhood ethnic and labor interests as well as the usual supporters from the conservation movement As a national recreation area GGNRA helped redefine that category in the public mind By the dawn of the new century it had already become one of the premier national park areas in terms of visitation Now as public lands become increasingly scarce GGNRA may well represent the future of national parks in America Rothman shows that this model works and his book will be an invaluable resource for planning tomorrow's parks *Ray Stanford Strong, West Coast Landscape Artist* Mark Humpal, 2017-12-14 Throughout his long and prolific career Ray Stanford Strong 1905-2006 strove to capture the essence of the western American landscape An accomplished painter who achieved national fame during the New Deal era Strong is best known for his depiction of landscapes in California and Oregon rendered in his signature plein air style This beautiful volume featuring more than 100 color and black and white illustrations is the first comprehensive exploration of Strong's life and artistry Through family papers archives photographs and a two year series of interviews conducted with the artist personally Mark Humpal traces Strong's journey from his childhood on an Oregon berry farm to his artistically formative years in New York and San Francisco After moving back to the West Coast Strong produced important works for the WPA executed major diorama projects for two world expositions helped organize the Santa Barbara Art Institute and served as teacher and mentor for a new generation of plein air artists But as Humpal emphasizes Strong distinguished himself by resisting the drumbeat of the avant garde During an era when many artists were experimenting with abstract expressionism Strong never relinquished his personal vision and adherence to a more traditional style With his outgoing personality he forged friendships and associations with such prominent artists as Frank Vincent DuMond Maynard Dixon Ansel Adams Frank Lloyd Wright and John Steinbeck Ultimately Strong had little concern for his place in the sweep of art history The proficiency he achieved through years of formal and informal study allowed him to craft a personal style difficult to categorize but unique and engaging By expanding our understanding and appreciation of Strong's artistic contributions this book offers a fitting tribute to one of America's finest landscape artists **A Nation Forged in War**

Thomas A. Bruscino, 2013-05-12 World War II shaped the United States in profound ways and this new book the first in the Legacies of War series explores one of the most significant changes it fostered a dramatic increase in ethnic and religious tolerance A Nation Forged in War is the first full length study of how large scale mobilization during the Second World War helped to dissolve longstanding differences among White soldiers of widely divergent backgrounds Never before or since have so many Americans served in the armed forces at one time more than 15 million donned uniforms in the period from 1941 to 1945 Thomas Bruscino explores how these soldiers shared experiences enduring basic training living far from home engaging in combat transformed their views of other ethnic groups and religious traditions He further examines how specific military policies and practices worked to counteract old prejudices and he makes a persuasive case that throwing together men of different regions ethnicities religions and classes not only fostered a greater sense of tolerance but also forged a new

American identity When soldiers returned home after the war with these new attitudes they helped reorder what it meant to be white in America Using the presidential campaigns of Al Smith in 1928 and John F Kennedy in 1960 as bookend events Bruscino notes a key change in religious bias Smith s defeat came at the end of a campaign rife with anti Catholic sentiment Kennedy s victory some three decades later proved that such religious bigotry was no longer an insurmountable obstacle Despite such advances Bruscino notes that the growing broad mindedness produced by the war had limits it did not extend to African Americans whose own struggle for equality would dramatically mark the postwar decades Extensively documented A Nation Forged in War is one of the few books on the social and cultural impact of the World War II years Scholars and students of military ethnic social and religious history will be fascinated by this groundbreaking new volume

**Life in a Corner** Robert S. McPherson, 2015-04-27 Community building in the Four Corners area of southeastern Utah required specialized knowledge and a good bit of determination on the part of settlers who wrested a livelihood from the Colorado Plateau Robert S McPherson the region s leading historian draws on oral history and personal archives to write about cowboys and homesteaders loggers and sawmill operators law enforcement officers and bootleggers miners and midwives trappers and builders In Life in a Corner he shapes their stories into a fascinating mosaic of cultural and environmental history unique to this region McPherson demonstrates that above all settlers worked hard in order to succeed in this often forbidding land A first person account of erecting a Latter day Saint tabernacle tells of volunteers using only what was under their feet or came from a nearby mountain Other chapters give an insider s perspective on cowboying in canyon country bringing law and order to a virtually lawless land waging war against wolves and coyotes and homesteading on some of the last large desert tracts in the continental United States But the most gripping stories center on the ingenuity of those who lived these personal experiences Only a veteran trapper would think of burying an alarm clock to attract a coyote Only a determined bootlegger would devise a saddle made of leather covered copper equipped with a spigot to dispense moonshine by the cup Only committed or desperate miners would sail with a one way ticket to a gold field in a hidden desert chasm What were midwives being taught at the turn of the century and how did their practice involve equal parts religious doctrine and medical procedure What was a qualifying examination like for the first forest rangers And how did small close knit communities handle slackers during World War I Life in a Corner answers these and many other questions while offering fresh perspectives on past events and current controversies

**Ghost Settlement on the Prairie** Joseph V. Hickey, 1995 Four miles southeast of the village of Matfield Green in Chase County Kansas the heart of the Flint Hills lies the abandoned settlement of Thurman At the turn of the century Thurman was a prosperous farming and ranching settlement with fifty one households a post office two general stores a blacksmith shop five schools and a church Today only the ruins of Thurman remain Joseph Hickey uses Thurman to explore the settlement form of social organization which along with the village hamlet and small town was a dominant feature of nineteenth and early twentieth century American life He traces Thurman s birth in

1874 its shallow rises and falls and its demise in 1944 Akin to what William Least Heat Moon did for Chase County in  
PrairieEarth Hickey provides a deep map for one post office community and consequently tells us a great deal about America's  
rural past Describing the shifting relationships between Thurmanites and their Matfield Green neighbors Hickey details how  
social forces set in motion by the American ideal of individualism and the machinations of capitalist entrepreneurs produced  
a Darwinian struggle between Thurman stock raisers and Flint Hills cattle barons that ultimately doomed Thurman Central to  
the story are the concept of ordinary entrepreneurship and the profoundly capitalist attitudes of the farmers who settled  
Thurman and thousands of other communities dotting the American landscape Hickey's account of Thurman's social  
organization and disintegration provides a new perspective on what happened when the cattle drives from Texas and the  
Southwest shifted in the 1880s from the Kansas cowtowns to the Flint Hills Moreover he punctures numerous myths about  
the Flint Hills including those that cattle dominated because the land is too rocky to farm or that Indians refused to farm  
because of traditional beliefs Like many other small rural communities Hickey argues Thurman during its seventy year  
history was actually several different settlements A product of changing social conditions each one resulted from shifting  
memberships and boundaries that reflected the efforts of local entrepreneurs to use country schools churches and other  
forms of social capital to gain advantages over their competitors In the end Thurman succumbed to the impact of  
agribusiness which had the effect of transforming social capital from an asset into a liability Ultimately Hickey shows the  
settlement's fate echoed the decline of rural community throughout America
