Connor, 2024-07-22 *Mid Century Romance* chronicles a revival of the historical novel in the middle decades of the twentieth century in the cultures of British modernism and international communism Born of a national turn in world politics these novels met the turbulence of mid century history with narratives of national becoming roadmaps to situate their readers in the pattern of social change Their writers were often mindful of the genre's romantic era heritage they saw themselves as following in the footsteps of Sir Walter Scott and they drew on the same rescued remains of primitive poetry and popular antiquities that romanticism first used to construct its versions of national identity culture and tradition This book shows how the impulse to salvage traces of ancestral culture and press them to new purpose links the mid century national historical novel to the rise of radical social history and magical realism Post war anticommunism shaped a tradition of the novel as a preserve of art and the individual *Mid Century Romance* counters with a different genealogy of the British and world novel whose object is society and the future of community the nation and its people It situates its cast of British

Blaagaard, 2016-06-10 *Citizen Media and Public Spaces* presents a pioneering exploration of citizen media as a highly interdisciplinary domain that raises vital political social and ethical issues relating to conceptions of citizenship and state boundaries the construction of publics and social imaginaries processes of co-optation and reverse co-optation power and resistance the ethics of witnessing and solidarity and novel responses to the democratic deficit Framed by a substantial introduction by the editors the twelve contributions to the volume interrogate the concept of citizen media theoretically and empirically and offer detailed case studies that extend from the UK to Russia and Bulgaria and from China to Denmark and the liminal spaces within which a growing number of refugees now live A rich new domain of scholarship and practice emerges out of the studies presented *Citizen media* is shown to embrace both physical and digital interventions in public space as well as the sets of values and agendas that influence and drive the practices and discourses through which individuals and collectives position themselves within and in relation to society and participate in the creation of diverse publics This book will be of interest to students and researchers in media and communication studies particularly those studying citizen media media and society journalism and society and political communication Cover image

courtesy of Ruben Hamelink *Transnational Perspectives on Culture, Policy, and Education* Cameron McCarthy, Cathryn Teasley, 2008 This series publishes critical scholarship that seeks to engage and transcend the disciplinary isolationism and genre confinement that now characterize so much of contemporary research in communication studies and related fields It focuses on studies that address the broad intersections and hybrid trajectories that define the encounters between human groups in modern institutions and societies and the way these intersections are represented in contemporary popular cultural forms of knowledge *Reconstructing Modernism* Ashley Maher, 2020 Drawing upon a wealth of previously unexplored architectural criticism by British authors this book reveals how arguments about architecture led to innovations in literature as well as to redesigns in the concept of modernism itself *Nineteenth-Century British Literature Then and Now* Simon Dentith, 2016-05-06 Envisioning today's readers as poised between an impossible attempt to read texts as their original readers experienced them and an awareness of our own temporal moment Simon Dentith complicates traditional prejudices against hindsight to approach issues of interpretation and historicity in nineteenth century literature Suggesting that the characteristic aesthetic attitude encouraged by the backward look is one of irony rather than remorse or regret he examines works by Charles Dickens George Eliot Anthony Trollope William Morris and John Ruskin in terms of their participation in significant histories that extend to this day Liberalism class gender political representation and notions of progress utopianism and ecological concern as currently understood can be traced back to the nineteenth century Just as today's critics strive to respect the authenticity of nineteenth century writers and readers who responded to these ideas within their historical world so too do those nineteenth century imaginings persist to challenge the assumptions of the present It is therefore possible Dentith argues to conceive of the act of reading historical literature with an awareness of the historical context and of the difference between the past and the present while allowing that friction or difference to be part of how we think about a text and how it communicates His book summons us to consider how words travel to the reality of the reader's own time and how engagement with nineteenth century writers anticipation of the judgements of future generations reveal hindsight's capacity to transform our understanding of the past in the light of subsequent knowledge
