Re Making Teaching Ideology Policy And Practice:

Re-Making Teaching Geoffrey Shacklock, John Smyth, 2002-01-31 Dramatic profound and far reaching changes are being visited on schools worldwide that have their genesis a long way from the classroom but which impact heavily on teachers and their work Most of this reform has been achieved with little or no involvement of teachers themselves This book sets out to survey the contemporary context of what is happening to the work of teaching and focuses on Advanced Skills Teachers It shows how teachers are speaking the changes that are occurring to their work in protracted economically rationalist times Arguing against the discourses of economy as the major shaping force the authors present a persuasive case for focusing on the discourses of teaching itself as the only feasible and adequate basis on which to make sense of teaching And by presenting a range of voices of practising teachers allowing them to speak for themselves about the difficulty of trying to translate policy makers intentions into words and actions the book graphically illustrates the devastating long term consequences for the future of schools of poorly conceptualised reform policies

Re-Making Teaching, 1998 This book sets out to survey the contemporary context of what is happening to the work of teaching and to show how teachers are speaking the changes that are occurring to their work in protracted economically rationalist times

Critical Pedagogy for Social Justice John Smyth, 2011-10-20 We live in a time when those who wield unrestrained power believe they have the inalienable right to determine the destiny nature and shape of social institutions like schools Critical Pedagogy for Social Justice challenges this arrogance by showing how teachers students parents communities and researchers can develop narratives that amount to working with and for those who are increasingly being silenced marginalized and excluded John Smyth sets out to revisit critical pedagogy from a number of key leverage points The overarching aim of this book is to unmask the deforming and distorting way power operates while at the same time revealing how a commitment to a more socially just world can exist in the everyday lives and narratives of people who have a passion for transformative possibilities His clear concise and persuasive book is ideal for those who are dissatisfied with the current turn in education and who are seeking an alternative set of views that emerge from the grounded experiences and practices of schools struggling with the most disadvantaged circumstances

Promoting Early Career Teacher Resilience Bruce Johnson, Barry Down, Rosie Le Cornu, Judy Peters, Anna Sullivan, Jane Pearce, Janet Hunter, 2015-08-27 Offers a rich set of narratives largely from an insiders point of view to help us create an alternative conception and practice of critical teacher resilience based on the principles and values of teacher empowerment participatory democracy and social justice Provides an alternative socio cultural and critical approach to teacher resilience challenging the implicit assumption that resilience primarily resides within individuals Seeks to empower graduate teachers by helping them to comprehend the ways in which individual personal troubles are neither unique nor isolated but are public issues shaped by wider historic and structural patterns and movements in the social world Written by a team of authors who are experts in the field of teacher resilience

Stanley,2008-03-01 This collection explores the political philosophy and theory foundations for educational administration and leadership as they influence our understanding analysis and practice in the field The first section Political Philosophy The Foundations discusses the work of such writers as Machiavelli Kant and Hegel Hayek Habermas and Bourdieu as their theories apply to the educational context The second section Political Analysis The Critique examines various types of political analyses such as the politics of the policy process minority politics civil society micro politics community politics and cosmopolitan theory The last section Current Political Controversies The Practice addresses current topical issues of a political nature including the serving of the state economic agenda the democratisation of educational organisations the neo conservative agenda and globalisation The broad international perspective from which these topics are covered makes this volume an excellent addition to the fields of educational leadership organizational studies and educational administration theory

Ideology and the Politics of (in)exclusion Linda P. Ware,2005 Ideology and the Politics of In Exclusion provides an international analysis of the politics of research and practice in special education The contributors to this volume establish purposeful connections to the micropolitics of disability identification and the macropolitics of social structure and describe various geographic locales recount multiple historical contexts rely upon differing sources of evidence and as a consequence relate a more complex and richly layered analysis of educational inclusion

Ideology and the Politics of In Exclusion breaks away from the prevailing discourse on educational inclusion as that which occurs in a vacuum separate from social inclusion by providing a close analysis of the narrow frameworks historic influence and research tensions that underwrite current special education practice *Mentoring Teachers in the Primary School* Kristy Howells, Julia Lawrence, Judith Roden, 2020-12-28 *Mentoring Teachers in the Primary School* helps mentors of trainee and newly qualified primary school teachers to both develop their own mentoring skills and provide the essential guidance their beginning teachers need as they navigate the roller coaster of the first years in the classroom Offering tried and tested strategies based on the best research it covers the knowledge skills and understanding every mentor needs Together with tools for self evaluation this book is a vital source of support and inspiration for all those involved in developing the next generation of outstanding teachers Key topics for primary mentors include the role of the mentor mentoring relationships mentoring in specialist areas mentoring development Filled with guidance to support mentors own development as well as the development of beginning primary teachers *Mentoring Teachers in the Primary School* is a vital guide for mentors of primary school teachers both trainee and newly qualified with ready to use strategies that support and inspire mentors

Living Faithfully Frances Schoonmaker, 2012-07-01 *Living Faithfully* is for anyone interested in education and education policy whether parent community member teacher student of leadership or policy maker It looks at school leadership and reform in an alternative way following the story of change at Washington School a troubled grades 5 6 center in a small town in Western Oklahoma Not only does the book address a neglected population the more than 1 3 of the nation s children who go to school in small towns and rural areas it uses the occasion to invert thinking about school reform It argues that in today s policy climate where guaranteed standard outcomes are touted as goals of education leadership schemes even those designed to challenge topdown bureaucratic models are quickly co opted to produce the appearance of learning Prevailing leadership theories beg the question of who is being transformed and to what end failing to challenge assumptions and dominant ideas of contemporary education and leadership thinking Drawing on Philip Phenix s idea of the faithful life the book proposes an alternative way forward Phenix talks about connections between school and life According to Phenix the faithful life is concerned with the normative question of what is good true right just beautiful and holy This is not the vocabulary of current education policy But it describes the kind of community created at Washington School despite its history of failure And it describes what most families want for their children whether they live in the city or country America or elsewhere an education that matters *In Search of Subjectivities* Michael A. Peters, Marek Tesar, 2015-11-19 While traditionally identified as a practice based endeavour the many dimensions of teacher education raise important philosophical issues that emphasise the centrality of ethics to questions of relationality and professional practice This second volume of the Educational Philosophy and Theory reader series demonstrates the continuing relevance of philosophical approaches to the field of teacher education The collection of texts focuses on a wide range of topics including teacher

education in a cross cultural context the notion of unsuccessful teaching democratic teacher education the reflective teacher the ethics and politics of teacher identity and subjectivity and performance in teaching Chapters also explore teacher education based on experiential learning as experience demonstrating the continuing relevance of philosophical approaches to the field In Search of Subjectivities will interest academics researchers and postgraduate students in the fields of philosophy of education philosophy education educational theory teacher education experiential philosophy ethics policy and politics of education and professional practice
