Re Visioning Psychology:

Re-Visioning Psychology James Hillman, 1977-12-28 This groundbreaking classic explores the necessity of connections between our life and soul and developing the main lines of the soul making process [The Life and Ideas of James Hillman](#) Dick Russell, 2023-05-30 James Hillman who died in 2011 at the age of eighty five has been described by poet Robert Bly as the most lively and original psychologist of the twentieth century Based on author Dick Russell's interviews with Hillman and dozens of people who knew him Volume Two of The Life and Ideas of James Hillman takes up Hillman's mid life when he set about returning psychology to its Soul rich roots in Greek mythology and Renaissance esotericism From his base teaching at Zurich's Jung Institute we follow Hillman's growing international prominence as a maverick in the field coinciding with his relationship and eventual marriage to Patricia Berry They would be instrumental in formulating Archetypal Psychology along with a group of young compatriots in what became known as Spring House The new ideas taking shape moved psychology away from the dominant scientific medical model with its focus on treating the isolated individual expanding into the fertile realm of culture and the imagination Amid prodigious writings and lectures Hillman made mythology and even alchemy relevant to our times Delivering the prestigious Terry Lectures at Yale and being nominated for a Pulitzer Prize Hillman returned to America after living primarily in Europe for thirty years To the surprise of many he settled in Dallas and helped found an Institute of Humanities and Culture while taking up how to re imagine city planning Equally surprising was Hillman's subsequent move to rural Connecticut where he and Pat Berry resided in a nineteenth century farmhouse Starting in the mid 80s Hillman became a pioneering teacher in the mythopoetic men's movement alongside Robert Bly and Michael Meade where deep talk about fathers and sons and male female relationships offered a new kind of group therapy a cultural therapy As Thomas Moore said of Hillman he possessed a genius for taking any theme and shedding serious fresh light on it Along the way Hillman's insights came to encompass all of the arts a poetic basis of mind that connected him to many of the most influential artists and thinkers of the modern era **Re-Visioning Psychiatry** Laurence J. Kirmayer, Robert

Lemelson, Constance A. Cummings, 2015-07-29 Re Visioning Psychiatry explores new theories and models from cultural psychiatry and psychology philosophy neuroscience and anthropology that clarify how mental health problems emerge in specific contexts and points toward future integration of these perspectives Taken together the contributions point to the need for fundamental shifts in psychiatric theory and practice Restoring phenomenology to its rightful place in research and practice Advancing the social and cultural neuroscience of brain person environment systems over time and across social contexts Understanding how self awareness interpersonal interactions and larger social processes give rise to vicious circles that constitute mental health problems Locating efforts to help and heal within the local and global social economic and political contexts that influence how we frame problems and imagine solutions In advancing ecosystemic models of mental disorders contributors challenge reductionistic models and culture bound perspectives and highlight possibilities for a more

transdisciplinary integrated approach to research mental health policy and clinical practice Hillman-Matters ,2015 In 1975 James Hillman published *Re-Visioning Psychology* which is perhaps his most important book and certainly constitutes one of the main texts in archetypal psychology This dissertation argues that the ideas presented by Hillman forty years ago have lost much of their psychological value and are again in need of revisioning In order to execute such revisioning this dissertation performs a close reading of *Re-Visioning Psychology* in which the central ideas of archetypal psychology personifying pathologizing psychologizing and soul making are examined under their own logic Hillman's ideas are in this way used to reflect on Hillman's ideas the text is treated as an image and studied as such The methodology is thus recursive the dissertation personifies personifying pathologizes pathologizing psychologizes psychologizing and dehumanizes soul making By doing this the dissertation reveals the tensions and contradictions present within Hillman's text Using Hillman's own archetypal methodology as a tool this dissertation problematizes fundamental concepts of archetypal psychology such as psychological polytheism the return to Greece the metaphorical aspect of the psyche and anima as root metaphor in archetypal psychology Particular attention is put on the historical aspect of Hillman's ideas arguing that Hillman's lack of historical rigor often limits his imaginal insights The dissertation concludes that when *Re-Visioning Psychology*'s ideas are applied to themselves and contextualized historically the book collapses under the pressure of its own argument revealing a mythic substructure which is highly monotheistic literalistic and Christian This dissertation contends that the collapse of *Re-Visioning Psychology*'s argument far from detrimental to archetypal psychology constitutes a furthering of soul making in its theory through deeper and more complex personifying pathologizing and psychologizing The dissertation argues that the questions and doubts raised by the text itself are an invitation to plunge into what is still unknown and foreign in the logic of Hillman's thought they constitute an invitation to imagine further the ideas of archetypal psychology particularly those presented by Hillman in *Re-Visioning Psychology* Key Words James Hillman archetypal psychology revisioning history polytheism monotheism literalism anima soul image *Re-Visioning the American Psyche* Ipek S. Burnett,2023-12-07 The United States is at a crossroads Moving away from the stalemate of political polarization and culture wars requires reflection critical thinking and imagination This book of collected essays brings together leaders in Jungian and archetypal psychology to forge this path by offering a comprehensive look at the American psyche *Re-Visioning the American Psyche* examines the myths images and archetypal fantasies ingrained in the collective consciousness and unconscious in the United States The volume tends to manifest symptoms in political institutions social conflicts and cultural movements Using various interpretative processes from psychoanalytic to literary and to participatory it reflects on the meaning of democratic participation the psychological cost of wars and violence intergenerational trauma due to racism the emotional dimensions of political polarization deep seated oppositional thinking in patriarchal structures frailty of the American Dream and more With its rich scope interdisciplinary scholarship and critical engagement with historical and current affairs this book will be of

great interest to those in Jungian and depth psychology as well as sociology politics cultural studies and American studies As a timely contribution with an international appeal it will engage readers who are invested in better understanding psychology's capacity to respond to social cultural and political realities Re-Visioning The Way We Work Ginger Grant,2005-08 The tools of business are dynamic capital people markets and ideas all are living entities in a constant state of flux To take these tools to work with them and reorganize them in new and different ways to produce a positive effect in your life and your organization is the essence of the creative process How to get there This work will provide a working map for the journey toward your own potential A lucid gateway to Joseph Campbell's monomyth of the hero's journey particularly as it can be applied to one's career Ginger Grant is an excellent interpreter of this invaluable but sometimes rather difficult body of work I recommend her highly William Gibson author of Pattern Recognition A most remarkable technique born of a most remarkable vision This book grounds the world of business management and corporate organization in a mythological psychology It demonstrates practically a way to give creativity and imagination to the real life of the workplace A unique and important contribution to the field David L Miller PhD Watson Ledden Professor Emeritus Syracuse University Ginger Grant's creative reimagining of the work place promises any who will consider her mythic approach to doing business a more flexible and humane corridor out of the stilted and calcified set of rules and formats that govern its behavior Her leading impulse that the corporate ethos will change dramatically only when it understands and accepts its own functioning mythology promises to reanimate the place where we spend the best energies of our lives Dennis Patrick Slattery Core Faculty Pacifica Graduate Institute and author of Grace in the Desert and The Wounded Body **Revisioning the Earth** Paul Devereux,1996-10-23 Devereux calls for an alteration of traditional perceptions of the world around us an ecopsychology that will reestablish harmony with the natural world His explorations of such ancient arts as feng shui herbal medicine vision questing and lucid dreaming heighten awareness of our place on the planet Photos line drawings **Re-Visioning Person-Centred Therapy** Manu Bazzano,2018-06-27 By exploring various ways to assimilate recent progressive developments and to renew its vital links with its radical roots Re-Visioning Person Centred Therapy Theory and Practice of a Radical Paradigm takes a fresh look at this revolutionary therapeutic approach Bringing together leading figures in PCT and new writers from around the world the essays in this book create fertile links with phenomenology meditation and spirituality critical theory contemporary thought and culture and philosophy of science In doing so they create an outline that renews and re-visions person centred therapy's radical paradigm providing fertile material in both theory and practice Shot through with clinical studies vignettes and in depth discussions on aspects of theory Re-Visioning Person Centred Therapy will be stimulating reading for therapists in training and practice as well as those interested in the development of PCT **Revisioning Transpersonal Theory** Jorge N. Ferrer,2002-01-01 A participatory alternative to the perennialism and experientialism dominant in transpersonal psychology *Integration and Difference* Grant Maxwell,2022-06-30 This groundbreaking work synthesizes concepts from

thirteen crucial philosophers and psychologists relating how the ancient problem of opposites has been opening to an integration which not only conserves differentiation but enacts it especially through the integration of myth into the dialectic Weaving a fascinating narrative that thinks with the complex encounters of theorists from Baruch Spinoza G W F Hegel Friedrich Nietzsche and William James to Alfred North Whitehead C G Jung Gilles Deleuze and Isabelle Stengers this book uniquely performs the convergence of continental philosophy pragmatism depth psychology and constructivist postmodern theory as a complement to the trajectory culminating in Jacques Derrida's deconstruction This is an important book for professionals and academics working across the humanities and social sciences particularly for continental theorists and depth psychologists interested in the construction of a novel epoch after the modern
