Reaction The National Energy Program:

Reaction, the National Energy Program Thomas J. Courchene, Kenneth Harold Norrie, Jack Garry Stabback, 1981 *New Dimensions of Canadian Federalism* Gregory S. Mahler, 1987 This book provides an assessment of federalism in the contemporary Canadian political system In a crossnational discussion it focuses on issues such as constitutional reform public health planning economic strategies foreign relations and national energy policy **National Energy Policy** Jim Wells (au), 2005-11 *President's National Energy Policy, Parts 1 & 2* United States. Congress. House. Committee on Science. Subcommittee on Energy, 2002 **Policy Politics Canada** Carolyn J. Tuohy, Carolyn Tuohy, 2010-10-29 A comparative perspective on the distinctive feature of the Canadian policy process enabling conflict resolution **National Energy Policy** United States. Congress. House. Committee on Science, 2002 **Intergovernmental Relations in Canada: Politics and policy** Ronald James Zukowsky, 1981 *Developing Alberta's Oil Sands* Paul Anthony Chastko, 2004 Alberta's oil sands represent a vast and untapped oil reserve that could reasonably supply all of Canada's energy needs for the next 475 years With an estimated 300 billion barrels of recoverable oil at stake the quest to develop this natural resource has been undertaken by many powerful actors both nationally and internationally Using research that integrates the economic political scientific and business factors that have been influential in discovering and developing the sands this book provides a comprehensive history of the oil sands project and a window on the nature of the complex relationships between industry government and transnational players This book is the first comprehensive volume that examines the origins and development of the oil sands industry over the last century *The Politics of Energy* G. Bruce Doern, Glen Toner, 2019-06-26 Originally published in 1985 This in depth analysis of federal energy policy and politics in the oil and gas sector critically evaluates the National Energy Program one of the most controversial and wide ranging policy initiatives in Canadian history an import case study Bridging Canadian politics and public policy the book gives an historical overview of the development of energy policy since 1945 examining the shifts in the balance of power between public and private energy interests It presents the NEP's positive and negative impacts on energy policy and the nature of political power *European Reactions to U.S. Policies in Vietnam* United States. Congress. House. Committee on Foreign Affairs, United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Africa, United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe, United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Foreign Economic Policy, United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Inter-American Affairs, 1973 **The Politics of Linkage** Brian Bow, 2010-07-01 Do Canada and the United States share a special relationship or is this a mere myth that has masked stark calculations of national interest Recent tensions over the Iraq War and ballistic missile defence have resurrected this perennial Canadian debate and triggered alarm about whether the US would make coercive linkages between issues to force Canada to change its policies The Politics of Linkage cuts through

political rhetoric and academic clichés by offering detailed accounts of postwar disputes over nuclear weapons Arctic waters oil and gas and the Iraq War Although early Cold War disputes were governed by a diplomatic culture that was genuinely special the limits of Canadian autonomy are now defined by the ever shifting alignment of interest groups in Washington and by international agreements and organizations

FutureGen Project, 2007 **Congress and National Energy Policy** James Everett Katz, James Katz evaluates the implications to the American political system of Congress's struggle over the formulation of a national energy policy during the last decade He makes an original contribution by analyzing the policy in a wider theoretical and historical context This combination of history description analysis and theory building makes the book highly informative and useful Katz shows that although energy supply is one of the greatest problems facing our generation and a key factor in the competition among world powers Congress has often been unable to form effective energy policies By examining Congress's reaction to the energy policy initiatives of recent administrations the organizational and sociological limitations of the nation's ability to grapple with the development of a comprehensive energy policy and the attempts to build a governmental organization to administer it Katz provides new insight into Congress as an organization as well as into the proclivities and dynamics of the U S policy system He also applies his own theory of organization to Congress to help predict and explain Congressional behavior

Governments' Responses to Climate Change: Selected Examples From Asia Pacific Nur Azha Putra, Eulalia Han, 2013-11-29 This multidisciplinary volume articulates the current and potential public policy discourse between energy security and climate change in the Asia Pacific region and the efforts taken to address global warming This volume is unique as it analyses two important issues climate change and energy security through the lens of geopolitics at the intersection of energy security It elaborates on the current and potential steps taken by state and non state actors as well as the policy innovations and diplomatic efforts bilateral and multilateral including regional that states are pursuing This Brief stems from the assumption that its audience is aware of the consequences of climate change and will therefore only look at the issues identified It provides a useful read and reference for a wide range of scholars policymakers researchers and post graduate students
