Literary Digest Edward Jewitt Wheeler, Isaac Kaufman Funk, William Seaver Woods, Arthur Stimson Draper, Wilfred John Funk, 1897 **The Child's Book of American Biography** Mary Stoyell Stimpson, 2021-04-25 In *The Child's Book of American Biography* Mary Stoyell Stimpson crafts an accessible yet profound introduction to key figures and events in American history tailored for a young audience. This work employs engaging narratives and vivid descriptions seamlessly intertwining historical fact with storytelling, making complex ideas digestible for children. Stimpson's literary style reflects her understanding of educational pedagogy, focusing on moral lessons and the virtues exemplified by these historical figures, allowing young readers to not only learn about the past but also internalize its lessons within a clear chronological framework. Mary Stoyell Stimpson, an accomplished writer and educator, was deeply invested in the development of children's literature in the late 19th century. Her experiences as a teacher and her commitment to fostering a love for reading in children profoundly influenced her writing approach. Stimpson understood the necessity of instilling a sense of national pride and identity through literature, which motivated her to present American history in a way that is both engaging and instructive. *The Child's Book of American Biography* is an invaluable resource for young readers and educators alike. Its thoughtful exploration of America's historical landscape serves not only to entertain but also to inspire curiosity and critical thinking about one's heritage. Recommended for parents and teachers seeking to enrich young minds, this book is a treasured addition to any child's library.

American Biography Carl Rollyson, 2006-02-22 This collection of reviews selected from Rollyson's *New York Sun* column is as much about the romance of biography as it is about the American lives. Certain concerns resonate throughout the book: the American left's failure to reckon with Communist subversion, McCarthyism, and Stalinism; the problematic nature of authorized biography; the history of American biography; definitive biographies; literary biography; the differences between autobiography and biography; the importance of interviews in biographies of contemporary figures; the differences between history and biography; comparative biographies; the virtues of short biographies and of biographies for children; the tendency of biographers to fictionalize and of novelists to biographize; psychology and biography; Rollyson's own experience as a biographer and the way biographers treat one another's work. Too many biographers, he believes, evince no interest in the biographical tradition. Concerned only with possession of their subjects, their proprietorial attitude deforms not only their biographies but also the genre itself. If biography is reviewed badly, receiving hardly more than a summary of the subject's life with a perfunctory nod to the biographer, it is because the biographical tradition has been disregarded or discounted. This book, in other words, has been written on the behalf of biography, a genre that still awaits a full vindication.
