Single Sounds

Introduction

Read and Colour - Single Sounds has been designed to reinforce the recognition of the letters of the alphabet and the sounds they make.

Students are asked to recognise and write single sounds in their beginning, middle and final positions in words.

Recognition of single sounds sets the foundation for developing further reading skills.

The pictures below will help you with the correct sounds for each of the letters of the alphabet.

 apple	 ball	 cat	 dog	 egg	 fish	 goat
 hat	 igloo	 jug	 key	 leaf	 man	 net
 orange	 pot	 quilt	 ring	 sun	 top	 umbrella
	 van	 wall	 box	 yawn	 zebra	

Most letters can have more than one sound e.g. 'o' as in orange or 'o' as in oval. These pictures will help you with the correct sound for each letter of the alphabet.

D. Vernon, 2010-06-24 Originally published in 1971 this book constitutes a scientific enquiry into the basis of reading and dyslexia Professor Vernon considers visual perception reasoning motivation and outlines work in psycholinguistics in order to define the basic psychological processes involved in learning to read She also discusses the problem of specific developmental dyslexia and concludes that the basic deficiency may lie in the processes of conceptual reasoning between the sequence of printed and sounded letters A fundamental disfunction of the brain is also seen as a possibility She stresses the importance of early recognition and remedial treatment of reading difficulties since these may be alleviated if not entirely overcome by suitable treatment

The Great Reading Disaster Mona McNee, 2012-02-20 By the late 1980s half the nation's children were receiving eleven years of progressivist schooling that failed to give them even the elementary basis of education that was completed by the age of seven in earlier days This great reading disaster was caused by the look say method of teaching which presented whole words not individual letters This book explains the causes and provides the solution to this problem In 2006 the Secretary of State for Education and Skills has ordered schools to use the phonic method but there seems little evidence that its implications are properly understood or that any serious re training programme for teachers is being put in place The authors believe their explanations and recommendations in this book are thus needed just as much as ever

Gove,2019-02-25 Access to books is key to learning to read and sustaining a love of reading Yet many low and middle income countries struggle to provide their students with reading materials of sufficient quality and quantity Since 2008 RTI International has provided technical assistance in early reading assessment and instruction to ministries of education in dozens of low and middle income countries The central objective of many of these programs has been to improve learning

outcomes in particular reading for students in the early grades of primary school Under these programs RTI has partnered with ministry staff to produce and distribute evidence based instructional materials at a regional or national scale in quantities that increase the likelihood that children will have ample opportunities to practice reading skills and at a cost that can be sustained in the long term by the education system In this paper we seek to capture the practices RTI has developed and refined over the last decade particularly in response to the challenges inherent in contexts with high linguistic diversity and low operational capacity for producing and distributing instructional materials These practices constitute our approach to developing and producing instructional materials for early grade literacy We also touch upon effective planning for printing and distribution procurement but we do not consider the printing and distribution processes in depth in this paper We expect this volume will be useful for donors policymakers and practitioners interested in improving access to cost effective high quality teaching and learning materials for the early grades
