**Text to Reader** Theo D'haen, 1983-01-01 Text to Reader seeks to find a critical approach that links a novel's form to its socio-cultural context Combining elements from Iser's reception aesthetics speech act theory and Goffman's frame analysis this book starts from the assumption that a reader has certain conventional expectations with regard to a novel and then goes on to examine how violations of these expectations rule the reader's relationship to the novel The theory sketched in the first chapter is then in four subsequent chapters applied to *The French Lieutenant's Woman* by the English author John Fowles *Letters* by the American John Barth *Libro de Manuel* by the Argentinean Julio Cortázar and *De Kapellekensbaan* by the Flemish novelist Louis Paul Boon The particular form each of these novels takes is analyzed as correlative to that novel's communicative function This book will be of interest to comparatists students of English and American literature and the literatures of Latin America and the Low Countries

*The Poems of Robert Browning: Volume Six* John Woolford, Daniel Karlin, Joseph Phelan, 2022-06-30 *The Ring and the Book* published serially in 1868-9 is one of the most daring and innovative poems in the English language The story is based on the trial of an Italian nobleman Guido Franceschini for the murder of his wife Pompilia in Rome in 1698 Browning's discovery of the old yellow book a bundle of legal documents and letters relating to the trial on a second hand market stall in Florence sparked an imaginative engagement with this sordid tale of domestic cruelty adultery and greed which grew through four years of arduous labour into an epic peopled not by gods and warriors but by concrete recognizably human beings Fusing the technique of the dramatic monologue the form he had made his own with the grandeur of classical epic and the vivid realism

of the modern novel Browning created a unique hybrid form that allowed him not only to bring to life an entire historical period but also to reflect on the process of artistic creation itself the forging of the golden ring of the poem from the pure crude fact of its historical original This edition comprising volumes 5 and 6 in the acclaimed Longman Annotated English Poets edition of Browning's poems does full justice to the scope and depth of Browning's achievement The headnote in volume 5 gives an authoritative account of the poem's composition publication sources and reception making use of hitherto unpublished letters and textual material In addition to giving readers help where needed with historical and linguistic comprehension the notes track Browning's formidable range of allusion from the most erudite to the most vulgar The appendices in volume 6 present a selection from the original sources a list of variants from extant proofs and key passages from Browning's fascinating and revealing correspondence with one of the earliest readers of the poem Julia Wedgwood The aim is to enable readers not just to understand the poem as an object of study but to take pleasure in its abounding intellectual and emotional energies

**The Proper Study of Religion** Sam Gill, 2020-08-11 The first generation of the proper academic study of religion might be said to span the half century from 1963 to 2013 Supreme Court Justice Clark's 1963 opinion clarifying that any liberal education is not complete without a study of comparative religion or the history of religion and its relationship to the advancement of civilization

allowed the legal teaching of religion in secular universities The end of the first generation might be marked by the 2013 retirement of Professor Jonathan Z Smith 1938 2017 from the University of Chicago where he had taught since 1968 Arguably no scholar has made a greater contribution than did Smith to establishing a proper academic study of religion In *The Proper Study of Religion* Sam Gill charts an innovative course of development for the academic study of religion by creatively engaging the legacy of Jonathan Z Smith Gill s teacher and mentor for fifty years Their careers coincided with the explosive expansion of the study of religion in secular universities in the US that began in the mid 1960s Using an engaging narrative style Gill builds on Smith s work exploring an extensive range of absorbing and foundational topics including comparison as essential to academic technique and to human knowledge itself the important role of experience richly understood both to academic studies of religion and to religions as lived play philosophically understood as a core dynamic of Smith s entire program the relationship of academic document based studies to the sensory rich real world of religions and self moving as providing a biological and philosophical foundation on which to develop and expand upon a proper academic study of religion The foregrounding of human self movement new to the study of religion is informed by Gill s experience as a dancer and student of dancing in cultures around the world This book honors the work of an unforgettable giant of a man while also offering critical assessments and innovative ideas in the effort to advance the remarkable legacy of Jonathan Z Smith
