

The background of the cover is a painting of a room. On the left, a window with green and white striped curtains is partially open, letting in bright light. In the center, there is a white door with a brass handle. To the right of the door, a wooden rocking chair with a woven seat is positioned. The walls are a warm, textured yellow-orange color, and the floor is made of wooden planks.

Nikolaus Dietrich, Johannes Fouquet

Readers Choice Course 5 With Picture Of Bust Schulpture:

Comics Beyond Text and Image Benjamin Fraser, 2025-08-08 Comics Beyond Text and Image conceptualizes comics as bodies exploring the substance and the many movements and expressions of comics first and foremost in terms of corporeality The book centers on the metaphor of the comics body as a way of opening up our understandings of what comics do It begins from the position that narrative in comics is corporeal expressed in and through the visual bodies into which the page can be divided analytically and from the interaction of the human body with the comics body Drawing on the philosophy of Baruch Spinoza the author argues for the primary role of visual narration over textual narration develops a theory of the comics text as a cohesive and variegated cartography and shows how thought is expressed in the extensive space of the comics page This theory is then applied in snapshots of individual comics works that each in their own way continue the philosophical discussions of embodiment This book moves beyond traditional modes of narration or narrative and will appeal to students and scholars of comics studies as well as to those thinking about visual narrative more broadly and to scholars of Spinoza and Deleuze
