A Reader's Guide to William Faulkner Edmond L. Volpe, 1978 *A Reader's Guide to William Faulkner* Edmond Loris Volpe, 1981 **A Reader's Guide to William Faulkner** Edmond L. Volpe, 2015-02-01 The new guide the first comprehensive book of its kind offers analyses of all Faulkner's short stories published and unpublished that were not incorporated into novels or turned into chapters of a novel. Seventy-one stories receive individual critical analysis and evaluation. These discussions reveal the relationship of the stories to the novels and point up Faulkner's skills as a writer of short fiction. Although Faulkner often spoke disparagingly of the short story form and claimed that he wrote stories for money, which he did, Edmond L. Volpe's study reveals that Faulkner could not escape even in this shorter form his incomparable fictional imagination nor his mastery of narrative structure and technique.

A Reader's Guide to William Faulkner Edmond L. Volpe, 2003-02-01 A standard reference work in American literature this volume is the most complete and detailed guide to the novels of William Faulkner. Edmond L. Volpe's aim is to reveal the greatness of Faulkner's art and the scope and profundity of his personal vision of life. He describes the dominant patterns in the fiction by isolating Faulkner's major themes and by analyzing his narrative techniques and style. He then offers extensive individual interpretations of the nineteen novels, tracing the development of Faulkner's ideas and includes a set of genealogical tables for each major family in the novels. Both scholarly and accessible, this unique treatment of Faulkner's novels from *Soldiers Pay* to *The Reivers* helps the reader come to a thorough understanding of a great American writer.

literary history If you like this book write a review *Literature and the Writer*, 2016-08-09 *Literature and the Writer* was first conceived with the hope the essays would shed light on several dimensions of the authorial craft It was the hope of the editor that the selected essays would examine not only writers choice of vocabulary but also their deliberate selection of grammatical constructions and word order and their seamless weaving together of plots and imagery Moreover the analyses would also draw attention to how the writing process impacts the development of characters and the formulation of thematic strands in fiction Thus a wide variety of authors are deliberately selected to give the text depth writers of popular fiction as well as modern classics are included and contrasts are established between traditional writers and those who prefer to follow experimental trends Modernists are set against postmodernists absurdists vs realists minority ethnicities vs majority cultures and dominant genders appear in contrast to subordinated ones Clearly the major tenet of the collection is that the writing profession provides an unending dilemma that deserves to be explored in more detail as readers try to determine how authorial voices confuse while simultaneously elucidating their audience how texts are constructed by authors and yet deconstructed by the very words they choose to include how silence functions as inaudible yet audible discourse and how authorial self concept shapes not only itself but is also echoed in the fictional characters writers who appear in the texts
