GRADES AND GRADING PRACTICES Charles H. Hargis, 2003-01-01 This second edition of Grades and Grading Practices not only contains updated and refreshed material on the problems caused by our current grading system it also provides two additional chapters dealing with the present issues on assessment standards and social promotion Designed to assist teachers instructors curriculum persons and administrators who desire to implement cooperative thinking and problem solving skills into the existing grading practices this book calls attention to the obstacles that have been created While poor grades may nudge some students to better performance there are other students low achievers who are demoralized by poor grades bringing about a variety of behavioral difficulties that have a negative effect on future incentive to learn Good grades are motivating but the only students who are motivated are those already getting good grades Success is fundamental to achievement Lack of success means lack of achievement The failing grades are indicative of our failure to provide success for most students who receive them This book explores the problems caused by grades and offers suggestions to improve the quality of American education Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1973

Strategic Reward Management Robert L. Heneman, 2002-06-01 The contents of this book center around the management of strategic reward systems In particular the book focuses in on the following elements of managing a reward system design implementation and evaluation It is my belief that too much time is spent on the administration of strategic reward systems at the expense of these other activities that add more value than does administration to the organization Moreover it is very important to remember that the management of reward systems takes place in a larger context that must be accommodated when designing implementing and evaluating strategic reward systems This larger context includes the business environment business strategy and compensation strategy Elements of the environment include the internal environment organizational structure business processes HR systems and external environment laws and regulations labor markets and unions The collection of articles presented throughout the book is very concerned with the fit of strategic reward management with the business environment business strategy and compensation strategy Research has clearly documented the importance of this fit to organizational effectiveness Gomez Mejia Balkin 1992 A practical illustration makes the point as well Taco Bell was found guilty in a class action suit by current and former employees In order to keep the number of labor hours low in a productivity formula used to grant bonuses to managers employee time sheets failed to account for overtime hours by employees Failure to pay attention to the legal context in designing implementing and evaluating a strategic reward program cost Taco Bell millions of dollars Gatewood 2001 Although all of the readings in the book focus in on the management of strategic rewards in the larger business context the readings are organized by topical area The selection of topics is simply based on my writing interests and do not reflect the entire domain of important topics in strategic reward management Eight Essentials for Empowered Teaching and Learning, K-8 Steve Reifman, 2008-05-22

Contains information that is vitally important for the success of any classroom Julie Duford Fifth Grade Teacher Polson Middle School MT Gives teachers a format that we can develop into a philosophy or goal for our classrooms so our students become enthusiastic about learning Debbie Halcomb Fourth Grade Teacher Robert W Combs Elementary Cornettsville KY Takes Gardner Covey Tomlinson and wraps them all together in a very motivating approach Karen Kersey Second Grade Teacher Albans Elementary St Albans WV Embrace quality as the number one priority in your classroom Inspirational and practical this book focuses on the quality of teaching and learning in elementary and middle school classrooms and helps teachers and students find more joy satisfaction and meaning in their work Experienced teacher Steve Reifman defines a quality classroom in reader friendly terms explains how to measure quality and covers the conditions under which all students are empowered to reach their full potential The author synthesizes key concepts from the fields of education psychology management and personal growth to arrive at the eight essential elements of teaching including realistic goal setting assessment oriented instruction parent involvement and teacher leadership Written in a personal engaging voice and drawing upon the work of experts such as Stephen Covey Howard Gardner Ted Sizer William Glasser Carol Ann Tomlinson Alfie Kohn and Alan Blankstein this resource Promotes student motivation and a classroom environment of trust and respect Builds higher level thinking and group problem solving into the curriculum Presents classroom applications examples anecdotes and reproducible pages Features ideas from practicing teachers for putting these essential ideas to work in the classroom Eight Essentials for Empowered Teaching and Learning K 8 motivates student teachers beginning teachers and veteran educators to become the most effective instructors they can be and achieve the best learning outcomes possible for their students

Motivating Students to Learn Kathryn R. Wentzel, 2014-02-18 Written specifically for teachers *Motivating Students to Learn* offers a wealth of research based principles on the subject of student motivation for use by classroom teachers Now in its fourth edition this book discusses specific classroom strategies by tying these principles to the realities of contemporary schools curriculum goals and classroom dynamics The authors lay out effective extrinsic and intrinsic strategies to guide teachers in their day to day practice provide guidelines for adapting to group and individual differences and discuss ways to reach

students who have become discouraged or disaffected learners This edition features new material on the roles that classroom goal setting developing students interest and teacher student and peer relationships play in student motivation It has been reorganized to address six key questions that combine to explain why students may or may not be motivated to learn By focusing more closely on the teacher as the motivator this text presents a wide range of motivational methods to help students see value in the curriculum and lessons taught in the classroom Motivation 101 James B. Schreiber,2016-12-15

What drives people toward their goals Does motivation come from outside the individual or from within This is a concise engaging overview of leading theories and the wide body of research about this core concept in psychology It draws from a broad spectrum of psychological models and disciplines and focuses on how various theories of motivation define and examine different motivational attributes such as rewards and goals An abundance of real life case examples from the author s research and life experiences vividly illuminate how various models explain behavior and connect the study of motivation to our daily lives An entertaining alternative to lengthy and expensive texts on the subject Motivation 101 is unique in helping readers understand how each theory of motivation behavioral neurobiological attribution and other models views and defines a particular concept within each theory For example each modality views the concept of reward from a different perspective The book is also distinguished by its multidisciplinary focus whereby research is drawn not only from different domains of psychology but also from such disciplines as education and business Additionally the text considers cultural differences in the study of motivation and collaborative environments and addresses changing research methodologies It will be an engaging introduction to the study of motivation for undergraduate courses in psychology and education

Key Features Provides a concise engaging overview of motivation that encompasses leading theories and a broad body of research Compares and contrasts different motivation theories including needs based and cognitive models Draws from research across a wide range of domains within psychology education and business Connects the study of motivation to our daily lives through illustrative vignettes and metaphors

When Reading Begins Ardith Davis Cole,2004 In When Reading Begins the author offers the most detailed precise and inspiring explanation of the exact moments when children cross the bridge into reading and the profoundly sensitive ways in which teachers make the crossing with them Peer-assisted Learning Keith Topping,Stewart Ehly,1998-07-01

Peer Assisted Learning PAL involves children in school consciously assisting others to learn and in so doing learning more effectively themselves It encompasses peer tutoring peer modeling peer education peer counseling peer monitoring and peer assessment which are differentiated from other more general co operative learning methods PAL is not diluted or surrogate teaching it complements and supplements but never replaces professional teaching capitalizing on the unique qualities and richness of peer interaction and helping students become empowered democratically to take more responsibility for their own learning In this book PAL is presented as a set of dynamic robust effective and flexible approaches to teaching and learning which can be used in a range of different settings The chapters provide descriptions of

good practice blended with research findings on effectiveness They describe procedures that can be applied to all areas of the school curriculum and can be used with learners of all levels of ability including gifted students students with disabilities and second language learners Among the distinguished contributors many are from North America while others are from Europe and Australia The applicability of the methods they present is worldwide Peer Assisted Learning is designed to be accessible and useful to teachers and to those who employ train support consult with and evaluate them Many chapters will be helpful to teachers aiming to replicate in their own school environments the cost effective procedures described A practical resources guide is included This volume will also be of interest to faculty and researchers in the fields of education and psychology to community educators who want to learn about the implications of Peer Assisted Learning beyond school contexts and to employers and others involved in post school training

NKA Motivating Students to Learn Jere E. Brophy, 2010-05-26 Written specifically for teachers this book offers a wealth of research based principles for motivating students to learn Its focus on motivational principles rather than motivation theorists or theories leads naturally into discussion of specific classroom strategies Throughout the book these principles and strategies are tied to the realities of contemporary schools and classrooms The author employs an eclectic approach to motivation that shows how to effectively integrate the use of extrinsic and intrinsic strategies Guidelines are provided for adapting motivational principles to group and individual differences and for doing repair work with students who have become discouraged or disaffected learners Career Development Artis Palmo, 1977 **Beyond Evolutionary Psychology** George Ellis, Mark Solms, 2018 This book presents a compelling unifying theory of which aspects of the brain are innate and which are not **Handbook of Clinical Psychology Competencies** Jay C Thomas, 2010 This three volume handbook describes the core competency areas in providing psychological services relevant to practitioners as well as clinical researchers It covers assessment and conceptualization of cases the application of evidence based methods supervision consultation cross cultural factors and ethics **Assessing and Correcting Classroom Reading Problems** J. Estill Alexander, Betty S. Heathington, 1988 **The Psychology of Reading** Mildred C. Robeck, Randall R. Wallace, 2017-11-06 The need to know why as well as how children and youth respond as they do to reading instruction has guided the selection of this book s content The second edition of this title originally published in 1990 has retained and elaborated upon the three major themes previously presented that reading is a linguistic process that motivation the affective domain may be as important in learning to read as the cognitive domain and that the reality of learning theory is to be found in the mechanisms of the brain where information is mediated and memory traces are stored The text integrates views from cognitive psychology psycholinguistics and neuropsychology as they relate to reading and writing A learning motivation model is provided to present associative learning conceptualization and self directed reading in a hierarchical relationship with distinct cognitive and affective components The distinction between beginning and proficient reading is maintained throughout the text *Psychology Library Editions: Psychology of Reading* Various Authors, 2021-03-01 The psychology of reading investigates the process by which readers extract visual information from written text and make sense of it Psychology Library Editions Psychology of Reading 11 Volumes brings together as one set or individual volumes a small series of previously out of print titles originally published between 1980 and 1995 The set includes topics such as dyslexia and the relationship between speech and reading **Abolishing Performance Appraisals** Tom Coens and Mary Jenkins, 2010-05-07 Performance appraisals are used in the overwhelming majority of workplaces Yet most organizations that use appraisal and a similar percentage of givers and receivers of appraisal are dissatisfied with the process Many are beginning to deeply question whether appraisal is necessary and consistent with the work culture espoused by progressive organizations Abolishing Performance Appraisals provides an insightful well documented look at the

flaws of appraisal including its destructive unintended effects and offers practical guidance to organizations that want to move on to more progressive approaches to coaching feedback development and compensation While many books prescribe cures for appraisal this is the first to focus exclusively on eliminating appraisal altogether and creating alternative non appraisal approaches based upon progressive and healthier assumptions about people The authors expose and dispel the widely accepted myths and false assumptions that underlie common management strategies surrounding the five key functions of appraisal coaching feedback development compensation and legal documentation They then offer step by step practical guidance on implementing alternative non appraisal strategies that deliver the objectives of each function And they suggest ways to give supervisors and managers the freedom to choose for themselves the most effective ways of working with people Filled with real life examples resources tools and detailed practical advice Abolishing Performance Appraisals is an entirely fresh and radically different view of performance appraisal and its functions that will help people start over and discover new and more effective approaches
