The Reading Framework: Reading Across the Curriculum

The resources have been created to provide an overview of Section 1 of the Department for Education's (DfE) guidance document 'The Reading Framework'.

School leaders should also engage with the full framework document to ensure that they have a thorough understanding of the expectations and recommendations.

Section 1 of the framework is subdivided into three sub-sections:

- [Access to learning across the curriculum](#)
- [Talk and discussion across the curriculum](#)
- [Learning across the curriculum](#)

The following table provides a summary of the headlines from each sub-section, their implications for members of school leadership teams and recommended next steps for leaders to take.

The whole curriculum should contribute to developing pupils' reading comprehension. Text comprehension requires extensive knowledge gained from a diverse and varied curriculum.	The importance for school systems and organisations to be implemented to ensure all pupils are supported with learning to read. In turn, this will enable them to access the full range of curriculum subjects as confident, skilled readers.	Ensure that all staff feel confident in supporting readers of all levels. Ensure staff continuing professional development (CPD) needs to further equip them to support pupils who are less knowledgeable about supporting early reading development?
Reading successfully in many subjects requires pupils to be able to read both extensively and fluently.		
Pupils who cannot read well need urgent support in order to access the full range of curriculum subjects.	It is vital that all teachers have clearly what pupils require additional support. Leaders must ensure that their staff have information on what pupils may need before talk with subject teachers.	Ensure staff CPD needs to ensure all which also support pupils with online as hands-on skills and

molecular electromagnetism a computational chemistry approach - Aug 22 2023

web aug 25 2011 this book is concerned with molecular electromagnetic properties and the interaction of molecules with static electric and magnetic fields as well as with the time dependent fields of electromagnetic radiation

molecular electromagnetism a computational chemistry approach - Jan 15 2023

web aug 25 2011 the book covers the derivation of the molecular hamiltonian in the presence of electromagnetic fields and of time independent and time dependent perturbation theory in the form of response

introduction molecular electromagnetisma computational chemistry - Jul 21 2023

web abstract this introductory chapter provides an overview of the book it defines the term molecular properties and presents some of the best known examples of molecular properties such as electric dipole moment frequency dependent polarizability the chemical shift and indirect nuclear spin spin coupling constant of nmr spectroscopy or
