INTERACT 2005 General Chairman 1 Peter J Denning ACM Communications April 2005 vol 48 N 4 pp 27 31 Editors Preface INTERACT is one of the most important conferences in the area of Human Computer Interaction at the world wide level We believe that this edition which for the first time takes place in a Southern European country will strengthen this role and that Rome with its history and beautiful setting provides a very congenial atmosphere for this conference The theme of INTERACT 2005 is Communicating Naturally with Computers

Oversight Hearing on Migrant Education Programs
United States. Congress. House. Committee on Education and Labor. Subcommittee on Agricultural Labor,1976 Reading Jewish Women Iris Parush,2004 In this extraordinary volume Iris Parush opens up the hitherto unexamined world of literate Jewish women their reading habits and their role in the cultural modernization of Eastern European Jewish society in the nineteenth century Parush makes a paradoxical claim she argues that because Jewish women were marginalized and neglected by rabbinical authorities who regarded men as the bearers of religious learning they were free to read secular literature in German Yiddish Polish and Russian As a result of their exposure to a wealth of literature these reading women became significant conduits for Haskalah Enlightenment ideas and ideals within the Jewish community This deceptively simple thesis dramatically challenges and revamps both scholarly and popular notions of Jewish life and learning in nineteenth century Eastern Europe While scholars of European women s history have been transforming and complicating ideas about the historical roles of middle class women for some time Parush is among the first scholars to work exclusively in Jewish territory The book will be a very welcome introduction to many facets of modern Jewish cultural history particularly the role of women which have too long been ignored

Individual Variation and the Bilingual Advantage - Factors that Modulate the Effect of Bilingualism on Cognitive Control and Cognitive Reserve Maurits Van den Noort,Peggy Bosch,Esli Struys,2020-02-11 The number of bilingual and multilingual speakers around the world is steadily growing leading to the questions How do bilinguals manage two or more language systems in their daily interactions and how does being bilingual multilingual affect brain functioning and vice versa Previous research has shown that cognitive control plays a key role in bilingual language management This hypothesis is further supported by the fact that foreign languages have been found to affect not only the expected linguistic domains but surprisingly other non linguistic domains such as cognitive control attention inhibition and working memory Somehow learning languages seems to affect executive brain functioning In the literature this is referred to as the bilingual advantage meaning that people who learn two or more languages seem to outperform monolinguals in executive functioning skills In this Special Issue we first present studies that investigate the bilingual advantage We also go one step further by focusing on factors that modulate the effect of bilingualism on cognitive control In the second smaller part of our Special Issue we focus on the cognitive reserve hypothesis with the aim of addressing the following questions Does the daily use of two or more languages protect the aging individual against cognitive decline Does lifelong bilingualism protect against brain diseases such as dementia later in life **Advantage Reading, Gr. 7, eBook** Linda Barr,2005-01-01 A wide range of activities that focus on essential grade level skills and strategies These activities are shaped and influenced by current research findings in literacy instruction grounded in the Reading First Initiative
