Postmodern Times Gene Edward Veith Jr., 1994-02-15 The modern era is over Assumptions that shaped twentieth century thought and culture the bridges we crossed to this present moment have blown up The postmodern age has begun Just what is postmodernism The average person would be shocked by its creed Truth meaning and individual identity do not exist These are social constructs Human life has no special significance no more value than animal or plant life All social relationships all institutions all moral values are expressions and masks of the primal will to power Alarming these ideas have gripped the nation's universities which turn out today's lawyers judges writers journalists teachers and other culture shapers Through society's influences postmodernist ideas have seeped into films television art literature politics and without his knowing it into the head of the average person on the street Christ has called us to proclaim the gospel to a culture grappling with postmodernism We must understand our times Then through the power that Christ gives we can counter the prevailing culture and proclaim His sufficiency to our society's very points of need

Reading between the lines - Leo Strauss and the history of early modern philosophy Winfried Schröder, 2015-11-13 Since its publication in 1952 Leo Strauss's *Persecution and the Art of Writing* has stirred considerable controversy particularly among historians concerned with early modern philosophy On the one hand several scholars share his view that it would be inadequate to generally take at face value the explicit message of texts which were composed in an era in which severe sanctions were imposed on those who entertained deviating views Reading between the lines therefore seems to be the appropriate hermeneutical approach On the other hand the risks of such an interpretative maxim are more than obvious as it might come up to an unlimited license to ascribe heterodox doctrines to early modern philosophers whose manifest teachings were in harmony with the orthodox positions of their time The contributions to this volume both address these methodological issues and discuss paradigmatic cases of authors who might indeed be candidates for a Straussian reading between the lines Hobbes Spinoza
