Silliman, Louise C. Wilkinson, 2007-01-10 Accessible and user friendly this volume presents evidence based practices for integrating language and literacy knowledge to enhance children s learning in today s standards based classrooms While grounded in theory and research the book focuses on day to day concerns in instruction and intervention identifying models for effective collaboration among speech language pathologists general and special educators and reading specialists Chapters cover a range of approaches for targeting core areas of literacy word recognition reading comprehension writing and spelling with particular attention to working with students with language learning difficulties **Graduate Catalog** University of Michigan--Dearborn, 2007 **The Big Book of Tasks for English Language Development, Grades K-8** Nancy Akhavan, 2024-02-29 This title examines how teaching multilingual learners requires changing instruction to focus on practices that have high impact for students as they acquire language Yet it s not about doing more it s about doing smarter **Contemporary Readings in Literacy Education** Marva Cappello, Barbara Moss, 2010 Contemporary Readings in Literacy Education is designed to provide students with high quality journal and research articles in literacy education The readings are contextualized with introductions and discussion questions by the editors of the text The text will help instructors to easily integrate the latest research into their course in a meaningful way This reader with edited content and contextualizing material makes the latest research more interesting and accessible to the students of literacy education Self-regulation of Learning and Performance Dale H. Schunk, Barry J. Zimmerman, 2023-01-06 In recent years educators have become increasingly concerned with students attempts to manage their own learning and achievement efforts through activities that influence the instigation direction and persistence of those efforts In 1989 Zimmerman and Schunk edited the first book devoted to this topic They assembled key theorists offering a range of perspectives on how students self regulate their academic functioning One purpose of that volume was to provide theoretical direction to ongoing as well as nascent efforts to explore academic self regulatory processes Since that date there has been an exponential surge in research This second volume on academic self regulation offers the fruits of the first generation of research It also addresses a number of key issues that have arisen since then such as how self regulation differs from such related constructs as motivation and metacognition and whether students can be taught self regulatory skills The contributors reveal an interesting uplifting and at times disturbing picture of how students grapple with the day to day problems of achieving in circumstances with inherent limitations and obstacles This volume provides insight into the

source of students capabilities to surmount adversities the origins of their self initiated processes designed to improve learning motivation and achievement The text is organized on the basis of a conceptual framework that analyzes academic self regulation into four major dimensions That model is presented in the first chapter and key processes that influence each of these dimensions are discussed by prominent researchers in the chapters that follow Because each chapter is written to follow a common format this work provides a level of continuity and parsimony normally found only in authored textbooks
