Long March To Power A History Of The:

A Military History of the Cold War, 1944-1962 Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

Bradford, 2004-12 With its impressive breadth of coverage both geographically and chronologically the International Encyclopedia of Military History is the most up to date and inclusive A Z resource on military history From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded them the campaigns and

Harrison,1972 **WORLD HISTORY, JOURNEYS** Candice Goucher,Linda Walton,2013-09-13 Using a thematic approach this innovative textbook explores the history of the world from its earliest prehistory to the present age of globalization The Siyar-ul-mutakherin, a history of the Mahomedan power in India during the last century. Revised from the tr. of haji Mustefa by J. Briggs Gulam-Husain ibn Hidayah Ali al-Tabataba i,1832 A Military History of China David Andrew Graff,Robin Higham,2012-03-09 Gaining an understanding of China s long and sometimes bloody history can help to shed light on China s ascent to global power Many of China s imperial dynasties were established as the result of battle from the chariot warfare of ancient times to the battles of the Guomindang KMT and Communist regimes of the twentieth century China s ability to sustain complex warfare on a very large scale was not emulated in other parts of the world until the Industrial Age despite the fact that the country is only now rising to economic dominance In A Military History of China Updated Edition David A Graff and Robin Higham bring together leading scholars to offer a basic introduction to the military history of China from the first millennium B C E to the present Focusing on recurring patterns of conflict rather than traditional campaign narratives this volume reaches farther back into China s military history than similar studies It also offers insightful comparisons between Chinese and Western approaches to war This edition brings the volume up to date including discussions of the Chinese military s latest developments and the country s most recent foreign conflicts Mao's Road to Power: Revolutionary Writings, 1912-49: v. 5: Toward the Second United Front, January 1935-July 1937 Zedong Mao,Stuart Schram,2017-07-28 This projected ten volume edition of Mao Zedong s writings provides abundant documentation in his own words regarding his life and thought It has been compiled from all available Chinese sources including the many new texts that appeared in 1993 Mao s centenary From People's War to People's Rule Timothy J. Lomperis,2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself Rather he proposes a comparison of the Vietnam experience with seven other cases of Western intervention in communist insurgencies during the Cold War era China Indochina Greece the Philippines Malaya Cambodia and Laos Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization Therefore he argues any intervention in a people s war will succeed or fail depending on how it affects this crisis The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements Applying this theory to the ongoing Sendero Luminoso insurgency in Peru Lomperis makes a qualified prediction of that conflict s outcome He concludes that a global trend toward democratization has produced a new era of people s rule Invisible Armies Max Boot,2013-01-10 New York Times Bestseller A Washington Post Notable Book

Nonfiction Named one of the Best Books of the Year by Foreign Policy A New York Times Book Review Editors Choice Selection Destined to be the classic account of what may be the oldest hardest form of war John Nagl Wall Street Journal Invisible Armies presents an entirely original narrative of warfare which demonstrates that far from the exception loosely organized partisan or guerrilla warfare has been the dominant form of military conflict throughout history New York Times best selling author and military historian Max Boot traces guerrilla warfare and terrorism from antiquity to the present narrating nearly thirty centuries of unconventional military conflicts Filled with dramatic analysis of strategy and tactics as well as many memorable characters from Italian nationalist Guiseppe Garibaldi to the Quiet American Edward Lansdale Invisible Armies is as readable as a novel Michael Korda Daily Beast and a timely reminder to politicians and generals of the hard earned lessons of history Economist

Documentary, World History, and National Power in the PRC Gotelind Mueller, 2013-10-30 Documentaries have recently become a favourite format for Chinese state directed media to present an officially sanctioned view of history Indeed this is not confined to Chinese national history In stark contrast to the earlier self centred preoccupation with Chinese history there has been an upsurge in interest in foreign history with a view to illuminating China's role not only in world history but also on the global stage today and in the future This book examines three recent Chinese documentary television series which present the officially sanctioned view of the rise of the modern West the reasons for the end of the Soviet Union and the legitimisation of the present day Chinese government via a specific reading of modern Chinese history to argue for a Chinese rise in the future With a focus on these documentaries Gotelind Mller discusses how history is presented on screen and explores the function of visual history for memory culture and wider society Further this book reveals how the presentation of Chinese and foreign history in a global framework impacts on the officially transmitted views on Self and Other and thus provides a keen insight into how the Chinese themselves regard their global rise Documentary World History and National Power in the PRC will be welcomed by students and scholars working across a number of fields including Chinese studies East Asian studies media studies television studies history and memory studies

John Adams's Nixon in China Timothy A. Johnson, 2016-05-06 John Adams's opera Nixon in China is one of the most frequently performed operas in the contemporary literature Timothy A Johnson illuminates the opera and enhances listeners and scholars appreciation for this landmark work This music analytical guide presents a detailed in depth analysis of the music tied to historical and political contexts The opera captures an important moment in history and in international relations and a close study of it from an interdisciplinary perspective provides fresh

compelling insights about the opera The music analysis takes a neo Riemannian approach to harmony and to large scale harmonic connections Musical metaphors drawn between harmonies and their dramatic contexts enrich this approach Motivic analysis reveals interweaving associations between the characters based on melodic content Analysis of rhythm and meter focuses on Adams s frequent use of grouping and displacement dissonances to propel the music forward or to illustrate the libretto The book shows how the historical depiction in the opera is accurate yet enriched by this operatic adaptation The language of the opera is true to its source but more evocative than the words spoken in 1972 due to Alice Goodman s marvelous poetic libretto And the music transcends its repetitive shell to become a hierarchically rich and musically compelling achievement

hegemony and so on **Goods, Power, History** Arnold J. Bauer, 2001-04-30 Why do we acquire the things we do Behind this apparently ingenuous question are several answers some straightforward and others more interesting To feed ourselves might be the first response for we can easily see that we expend much energy in the quest for food Clothing and shelter as well would seem to constitute our basic needs Yet we quickly see that even in the Garden of Eden people want more than they need This simple impulse has created the ever mounting abundance we call progress and nearly all of the subsequent trouble on our planet Four main interwoven themes run through this exploration of material culture and consumption in Latin America over the past five centuries supply and demand the relationships between consumption and identity the importance of ritual both ancient and modern in what we buy and the relationship between colonial and post colonial power in consumption **Power and Sustainability of the Chinese State** Keun Lee, Joon-Han Kim, Wing Thye Woo, 2009-01-13
