Freaky Truths About God & Evolution Harold Stewart, 2014-09-12 Theologians philosophers and scientists all have differing views of the world but what is the real abiding reality Most are afraid to cross the streams so to speak of these distinct disciplines but suppose we could gather together a group of these adherents to discuss the questions that people consider to taboo to talk about in public like the relationship of faith fact or fantasy Where would that conversation its tangents or derivatives lead This book attempts to answer those questions of the mind that every rational person has at some point in their life To do that we must engage in discussions about reality absurdity perception Truth consciousness as well as Godel's preverbal incompleteness While discussing the origin of the cosmos the topic will migrate from Transformers and UFO's to how multidimensionality could be related to miracles The theme of the book examines the freaky truths of the relationship of these divergent disciplines and beliefs As such the main characters will be the Sovereign of the Universe and His history verses that of the scientific and philosophical communities In answering the Problem of Evil alone worth the cost we invariably meet the Hostis humani generis the enemy of humanity Satan Hopefully a rocking good time will be had by everyone who ventures to buy the book P S Don't be surprised if you find a few spooky parts as well
