The Lost Pattern Raymond Aubrey Forsyth, 1976 *Dark Nights, Bright Lights* Susanne Bach, Folkert

Degenring, 2015-10-16 Light and darkness shape our perception of the world This is true in a literal sense but also metaphorically in theology philosophy literature and the arts the light of day signifies life safety knowledge and all that is good while the darkness of the night suggests death danger ignorance and evil A closer inspection however reveals that things are not quite so clear cut and that light and darkness cannot be understood as simple binary opposites On a biological level for example daylight and darkness are inseparable factors in the calibration of our circadian rhythms and a lack of periodical darkness appears to be as contrary to health as a lack of exposure to sunlight On a cultural level too night and darkness are far from being universally condemnable in fiction drama and poetry the darkness of the night allows not only nightmares but also dreams it allows criminals to ply their trade and allows lovers to meet it allows the pursuit of pleasure as well as deep thought it allows metamorphoses transformations and transgressions unthinkable in the light of day But night is not merely darkness The night gains significance as an alternative space as an other of the day only when it is at least partially illuminated The volume examines the interconnection of night darkness and nocturnal illumination across a broad range of literary texts The individual essays examine historically specific light conditions in literature tracing the symbolic and metaphoric content of darkness and illumination and the attitudes towards them **The Gold Thread** William

Morris, 2016-10-04 In the mid Victorian period when British international influence and power were at their height concerns about local economic and social conditions were only slowly coming to be recognised as part of the obligations and expectations of central government Adopting a legal history perspective this study reveals how municipal authorities of this period had few public law powers to regulate local conditions or to provide services and thus the more enterprising went direct to Parliament to obtain at a price the passing specific local Bills to address their needs Identifying and analysing for

the first time the 335 local Parliamentary Bills promoted by local authorities in the period from the passing of the Local Government Act 1858 to the first annual report of the Local Government Board in 1872 the book draws three main conclusions from this huge mass of local statute book material The first is that far from being an uncoordinated mass of inconsistent quixotic provisions these Acts have a substantial degree of cohesion as a body of material Second the towns and cities of northern England secured more than half of them Thirdly the costs of promotions and the vested interests involved in them represented a huge and often wasteful outlay that a more pragmatic and forward looking Parliamentary attitude could have greatly reduced

Christian Fantasy Colin N.
