Patke,2018-03-01 In all cultures and times the poetic imagination has fed on the natural attributes of islands An island is either a destination or a home or a place of exile and imprisonment or simply a place to sojourn It is an ideal vehicle for journeys treated as allegories or for acts of finding that turn into acts of losing or the reverse transformation An island is not a continent yet it can be an archipelago An island is both a place in itself and a pretext for imaginings that need a local habitation and a name It can give relief and pleasure or it can frustrate isolate and negate Above all it both invites and resists or contains or constrains the imagination Poetry and Islands explores how islands become repositories of human longings and desires a locus for some of our deepest fears and fantasies It balances historical and geographical reference with a selective approach to poems and poets in English and in translations into English The study of particular poems in which islands figure in exemplary ways is balanced by a more detailed discussion of the poets who have played a major role in shaping human responses to islands on a global scale The Bermuda Triangle and the Lost Island Tammy Dillsworth-Swift,2009-10 After being shipwrecked in the Bermuda Triangle 15 year old Becky must help her family survive on a deserted island But then they find they are not alone *The Lost Island* E.
