What to Do About Your Troubled Child Laura Stevens, MSci,Richard W. Walker, Jr.,2022-09-02 As children grow there may be times when their behavior seems out of place or troubling When there is a recurrent pattern of one or more of these types of behavior something may be wrong As a parent if you have noticed something off about the way your child has been acting perhaps it s time to take a closer look at what might actually be going on before it gets worse What to Do About Your Troubled Child is designed to provide you with the information you need to get to the bottom of the mystery If a behavioral disorder is caught early enough and treated correctly it can be greatly lessened or even eliminated Unfortunately many behavioral problems in children go undiagnosed for so long that they progress beyond the possibility of improvement This book is divided into two parts Part One looks at six of the most common behavioral disorders Obsessive Compulsive Disorder OCD Attention Deficit Hyperactivity Disorder ADHD Autism Anxiety Disorders Oppositional Defiant Disorder and Conduct Disorder Each chapter focuses on one disorder and includes a list of questions intended to determine if your child exhibits enough of the tendencies associated with this disorder to warrant a closer look It then describes the symptoms and risk factors of the problem how it may be professionally diagnosed and traditional means of treatment which include therapy and medication Part Two offers a detailed look at complementary approaches to treatment such as lifestyle changes nutrition beneficial programs and helpful devices Telling

yourself that your child is bound to grow out of a certain pattern of behavior may be causing you to ignore the signs of a serious issue one that should be addressed By the time your child reaches adolescence the disorder may be too far gone Now is the time for you to understand and do something about it Now is the time to let What to Do About Your Troubled Child be your guide

Hardwired:

How Our Instincts to Be Healthy are Making Us Sick Robert S. Barrett, Louis Hugo Francescutti, 2020-10-30 For the first time in a thousand years Americans are experiencing a reversal in lifespan Despite living in one of the safest and most secure eras in human history one in five adults suffers from anxiety as does one third of adolescents Nearly half of the US population is overweight or obese and one third of Americans suffer from chronic pain the highest level in the world In the United States fatalities due to prescription pain medications now surpass those of heroin and cocaine combined and each year 10% of all students on American college campuses contemplate suicide With the proliferation of social media and the algorithms for social sharing that prey upon our emotional brains inaccurate or misleading health articles and videos now move faster through social media networks than do reputable ones This book is about modern health or lack of it The authors make two key arguments that our deteriorating wellness is rapidly becoming a health emergency and two that much of these trends are rooted in the way our highly evolved hardwired brains and bodies deal with modern social change The co authors a PhD from the world of social science and an MD from the world of medicine combine forces to bring this emerging human crisis to light Densely packed with fascinating facts and little told stories the authors weave together real life cases that describe how our ancient evolutionary drives are propelling us toward ill health and disease Over the course of seven chapters the authors unlock the mysteries of our top health vices why hospitals are more dangerous than warzones our addiction to sugar salt and stress our emotionally driven brains our relentless pursuit of happiness our sleepless society our understanding of risk and finally how world history can be a valuable tutor Through these varied themes the authors illustrate how our social lives are more of a determinant of health outcome than at any other time in our history and to truly understand our plight we need to recognize when our decisions and behavior are being directed by our survival seeking hardwired brains and bodies **Child**
