Parties Out of Power in Japan, 1931-1941 Gordon Mark Berger, 1977 Parties as Governments in Eurasia, 1913-1991 Ivan Sablin, Egas Moniz Bandeira, 2022-08-15 This book examines the political parties which emerged on the territories of the former Ottoman Qing Russian and Habsburg empires and not only took over government power but merged with government itself It discusses how these parties disillusioned with previous constitutional and parliamentary reforms justified their takeovers with programs of controlled or supervised economic and social development including acting as the mediators between the various social and ethnic groups in the respective territories It pays special attention to nation building through the party to institutions both constitutional and de facto and to the global and comparative aspects of one party regimes It explores the origins of one party regimes in China Czechoslovakia Korea the Soviet Union Turkey Yugoslavia and beyond the roles of socialism and nationalism in the parties approaches to development and state building as well the pedagogical aspirations of the ruling elites Hence by revisiting the dynamics of the transition from the earlier imperial formations via constitutionalism to one party governments and by assessing the internal and external dynamics of one party regimes after their establishment the book more precisely locates this type of regime within the contemporary world's political landscape Moreover it emphasises that one party regimes thrived on both sides of the Cold War and in some of the non aligned states and that although some state socialist one party regimes collapsed in 1989 1991 in other places historically dominant parties and new parties have continued to monopolize political power The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license Japan's Ocean Borderlands Paul Kreitman, 2023-07-27 Desert islands are the focus of intense geopolitical tensions in East Asia today but they are also sites of nature conservation In this global environmental history Paul Kreitman shows how the politics of conservation have entangled with the politics of sovereignty since the emergence of the modern Japanese state in the mid nineteenth century Using case studies ranging from Hawai'i to the Bonin Islands to the Senkaku Ch Diaoyu Isles to the South China Sea he explores how bird islands on the distant margins of the Japanese archipelago and beyond transformed from sites of resource extraction to outposts of empire and from wartime battlegrounds to nature reserves This study examines how interactions between birds bird products bureaucrats speculators sailors soldiers scientists and conservationists shaped ongoing claims to sovereignty over oceanic spaces It considers what the history of desert islands shows us about imperial and post imperial power the web of political economic and ecological connections between islands and oceans and about the relationship between sovereignty territory and environment in the modern world Politics and Culture in Wartime Japan Ben-Ami Shillony, 1991 This analysis of the politics and culture of Japan during the period of World War II argues that the wartime regime repressive as it was was very different from contemporary totalitarian states **The Greater East Asia Co-Prosperity Sphere** Jeremy A. Yellen, 2019-04-15 The Greater East Asia Co Prosperity Sphere offers a

lucid dynamic and highly readable history of Japan's attempt to usher in a new order in Asia during World War II Cross Currents East Asian History and Culture Review In The Greater East Asia Co Prosperity Sphere Jeremy A Yellen exposes the history politics and intrigue that characterized the era when Japan's total empire met the total war of World War II He illuminates the ways in which the imperial center and its individual colonies understood the concept of the Sphere offering two sometimes competing sometimes complementary and always intertwined visions one from Japan the other from Burma and the Philippines Yellen argues that from 1940 to 1945 the Greater East Asia Co Prosperity Sphere epitomized two concurrent wars for Asia's future the first was for a new type of empire in Asia and the second was a political war waged by nationalist elites in the colonial capitals of Rangoon and Manila Exploring Japanese visions for international order in the face of an ever changing geopolitical situation The Greater East Asia Co Prosperity Sphere explores wartime Japan's desire to shape and control its imperial future while its colonies attempted to do the same At Japan's zenith as an imperial power the Sphere represented a plan for regional domination by the end of the war it had been recast as the epitome of cooperative internationalism In the end the Sphere could not survive wartime defeat and Yellen's lucidly written account reveals much about the desires of Japan as an imperial and colonial power as well as the ways in which the subdued colonies in Burma and the Philippines jockeyed for agency and a say in the future of the region
