and heart disease too Make your dog leave the room if he begins to beg or train him to spend mealtimes in another room entirely Train your dog in your backyard or home as these are safe convenient areas Training in busy areas with lots of people around should be avoided It will be very distracting for your pup Ask your vet about which foods he can eat Sometimes your puppy may not be developed enough to consume certain brands as this can lead to an upset stomach or sicknesses Always be cautious when you re thinking of feeding your dog Whenever your dog performs a good action such as sitting or staying give it praise and rewards Make your pet understand you are pleased with the behavior and expect to see it again In this way your dog will learn that desired behavior brings praise Speak to your vet about your dog s eating habits While some people feed them according to the dog food package guidelines these guidelines can be incorrect and lead to an overweight dog Speak with your vet and work out an appropriate eating plan for your dog When you get a new dog it is best that you schedule a check up at the vet right away Make a vet appointment right after the dog comes home The vet is going to check over your pet to see if everything is okay as well as set it up to get vaccinations it may need Consider having your pup spayed or neutered as there is already an overpopulation problem If you ve been considering adopting a dog but still aren t sure you could try to become a foster owner first Dogs who have been abused or left without a home stay in shelters until someone adopts them Since there are so many dogs in shelters there are little resources Fostering a dog will both help the cause and allow you to test drive the responsibility involved with pet ownership Avoid matting on your dog s paws by keeping the hair on them trimmed You should use a comb to straighten out the hair a bit before trying to trim it If you don t feel comfortable doing this take your pet to a groomer Get into pet politics Be on the lookout for any new laws that may be passed which could restrict your rights as a dog owner Sometimes a small number of bad dogs get more publicity than a large number of good dogs Be sure to voice your concerns in regards to dogs and dog owners by staying in touch with local officials As a dog owner you need to repay your dog s affection with responsible reliable care Now that you know what to do you should be prepared to do it Start using these tips to make your dog happier and healthier With Thanks To Nicole

For the Love of Pets Eugene J. Lee II,2018-08-12 Most individuals have an idea just what type of pet they want however the maintenance of a pet can cause some concern Knowing how to choose the correct pet for you may be easy You may have had several pets as a child and know you need a companion for your own home or you may have always wanted a pet but been told you could not have one Whatever the case you may need to take into consideration some key points to pet care when deciding what pet is right for you First some pets take more care than others Dogs are very needy animals They are very sensitive towards their owners I am sure most of you have heard

of dogs tearing up a house when left alone all day. Dogs can get bored even when they have other dog companions and toys. They need the human interaction. Most dog owners take their dogs out for a walk before work and after work for the exercise and play time. Other owners who work outside will often let their dogs come to work with them to keep them out of trouble. Cats on the other hand can amuse themselves and as long as you put your valuables on a shelf they cannot reach and keep a clean house they will sleep, look out windows and play with toys while you are away. Fish are another type of pet that is typically low maintenance except for cleaning the fish tank. Pet care is very important when you own a pet. They need attention from their owners, positive reinforcement training and love. Fish are usually excluded from this statement as they just need food, proper tank maintenance and a few plants to sustain life, however the point is proper pet care is required when you own any pet. The decision will be yours to make in choosing what the right pet is for you. Above I mentioned three types of pets and little about their care, now I am going to look at it a little more. While dogs are high maintenance and require the most training, they are also one of the best pets to own. They can alert you to danger, alert you to someone at the door and give unconditional love back. A dog only asks in return for proper care and a great deal of attention. If you cannot be home all the time, you will want to make sure the dog has a roof over their heads in case of inclement weather and a huge yard to play in. Some dogs can jump fences so it may be best to have a dog run in the yard so they can move about but not escape. Cats on the other hand can be high or low maintenance depending on breed as well as personality. Some cats require hours of people attention while others shirk attention. Some cats belong to a one pet household. They do not like to share their owner's affections and will become upset if not mean towards the infiltrator. Others need the playmate's attention to live happily. It will be hard to determine just which type of cat you own when you first buy them as kittens as their personalities are just developing. Pet care is the most important factor when you are deciding which pet is right for you and your home. You will want to consider all the pet care needs of the animals you are looking at as well as the breed you are looking at to determine if they will have a happy place in your home.
