Rationed Freedoms:

Rationing and Rights in Health Care Jo Lenaghan, Joanne Lenaghan, 1996 The Narrow Path of Freedom and Other Essays Eugene Davidson, 2002 These essays deal with the history of the past half century facing the world's encouraging as well as saddening developments from the Nuremberg Trials to Saddam Hussein and the absurdities of Ezra Pound One group of essays confronts the idea of history and what the past should mean *Federal Register*, 1979-03 Fair Resource Allocation and Rationing at the Bedside Marion Danis, Samia A. Hurst, Len Fleck, Reidun Forde, Anne Slowther, 2014-10-02 Health systems need to set priorities fairly In one way or another part of this important task will fall to physicians How do they make judgments about resource stewardship and how should they do so How can they make such decisions in a manner that is compatible with their clinical duties to patients In this book philosophers bioethicists physicians lawyers and health policy experts make the case that priority setting and rationing contribute significantly to the possibility of affordable and fair healthcare and that clinicians play an indispensable role in that process The book depicts the results of a survey of European physicians about their experiences with rationing and other cost containment strategies and their perception of scarcity and fairness in their health care systems Responding to and complementing these findings commentators discuss why resource allocation and bedside rationing is necessary and justifiable The book explores how bedside rationing relates to clinical judgments about medical necessity and medical indications marginal benefits weak evidence based medicine off label use The book highlights how comparative studies of health care systems can advance more effective and fair bedside rationing through learning from one another From a practical standpoint the book offers a number of strategies for health care systems and clinicians to work in tandem to allocate and ration resources as fairly as possible how to foster more attention to fairness when rationing at the bedside how to avoid exacerbating health disparities when allocating resources how to teach about bedside rationing to students how to discuss rationing more explicitly in the public arena and in the doctor's office

Rationing Justice Kris Shepard, 2009-04-01 Established in 1964 the federal Legal Services Program later Corporation served a vast group of Americans desperately in need of legal counsel the poor In *Rationing Justice* Kris Shepard looks at this pioneering program's effect on the Deep South as the poor made tangible gains in cases involving federal state and local social programs low income housing consumer rights domestic relations and civil rights While poverty lawyers Shepard reveals did not by themselves create a legal revolution in the South they did force southern politicians policy makers businessmen and law enforcement officials to recognize that they could not ignore the legal rights of low income citizens Having survived for four decades America's legal services program has adapted to ever changing political realities including slashed budgets and severe restrictions on poverty law practice adopted by the Republican led Congress of the mid 1990s With its account of the relationship between poverty lawyers and their clients and their interaction with legal political and social structures *Rationing Justice* speaks poignantly to the possibility of justice for all in America **Mist of Time -**

Visitors Chris Randall,2013-07-02 The story opens on a cold and wintry evening in November 1996 Due to bad weather self motivated businesswoman Jacqui Ventura finds herself stranded at her workplace Whilst contemplating her actions she encounters an unusual stranger Curiosity and trust leads her to invite the man to take shelter in her office but as she gets to know him better things are not quite what they appear The entrancing story presented by the stranger Zorando seems unlikely When Jacqui puts the story to the test she is completely unprepared for the result Zorando is on a mission from the 34th century to take home Shanovia who has inexplicably travelled back to the 20th century Through an ingenious plan activated by Shanovia in the 20th century Zorando in the 34th century finds out where she is and how to get her back The story is told partly by Zorando and partly by Shanovia who tells her story through a hologram recording that Zorando has brought from his own time

The Rights of Refugees under International Law James C. Hathaway,2005-09-15 This book presents the first comprehensive analysis of the human rights of refugees as set by the UN Refugee Convention In an era where States are increasingly challenging the logic of simply assimilating refugees to their own citizens questions are now being raised about whether refugees should be allowed to enjoy freedom of movement to work to access public welfare programs or to be reunited with family members Doubts have been expressed about the propriety of exempting refugees from visa and other immigration rules and whether there is a duty to admit refugees at all Hathaway links the standards of the UN Refugee Convention to key norms of international human rights law and applies his analysis to the world s most difficult protection challenges This is a critical resource for advocates judges and policymakers It will also be a pioneering scholarly work for graduate students of international and human rights law

Freedom with Responsibility Anthony James Nicholls,2000 This book goes behind the success story of the Federal Republic of Germany since the Second World War to examine the principles underpinning the so called economic miracle A J Nicholls examines the intellectual origins and history of the concept of the Social Market Economy and its implementation in the difficult years of post war devastation and recovery in West Germany He traces the struggle of liberal economists to assert their ideas in the unfavorable circumstances from 1933 to 1948 when they triumphed with Erhard s implementation of a policy of liberalization following currency reform The book analyzes the extent to which West Germany s economic success was due to Erhard s policies and assesses his attempts to attain the goals of the social market up to 1963 when he became Federal Chancellor Nicholls s study makes an important contribution to our understanding of the historical dynamics of the German economy and the political culture of the Federal Republic

Rationing and Resource Allocation in Healthcare Ezekiel J. Emanuel,2018 Budgets of governments and private insurances are limited Not all drugs and services that appear beneficial to patients or physicians can be covered Is there a core set of benefits that everyone should be entitled to If so how should this set be determined Are fair decisions just impossible if we know from the outset than not all needs can be met While early work in bioethics has focused on clinical issues and a narrow set of principles in recent years there has been a marked shift towards addressing broader population

level issues requiring consideration of more demanding theories in philosophy political science and economics At the heart of bioethics new orientation is the goal of clarity on a complex set of questions in rationing and resource allocation Rationing and Resource Allocation in Healthcare Essential Readings provides key excerpts from seminal and pertinent texts and case studies about these topics contextualized by original introductions The volume is divided into three broad sections Conceptual Distinctions and Ethical Theory Rationing and Resource Allocation Containing the most important and classic articles surrounding the theoretical and practical issues related to rationing and how to allocate scarce medical resources this collection aims to assist and inform those who wish to be a part of bioethics 21st century shift including practitioners and policy makers and students and scholars in the health sciences philosophy law and medical ethics

Rationing in Medicine F. Breyer, H. Kliemt, F. Thiele, 2013-03-09 The book series on the ethics of science and technology assessment edited by the Europäische Akademie is devoted to the publication of the work reports of its project groups works on the foundations of ethics the philosophy science and other issues related to the work of the Europäische Akademie In addition the series comprises the proceedings of conferences organized by the academy The 13th volume documents the proceeding of the academy's spring symposium in 2000 on Rationing in Medicine which was held in Bad Neuenahr Ahrweiler on March 23-25 2000 An intense discussion on the future of health care in Europe has been stimulated by increasing difficulties of securing adequate and needs orientated medical care in the face of scarce resources and medical progress Unfortunately quite often a rational discussion of rationing is drowned out by the political talk of the day But only an open and well informed debate if anything at all can lead to transparent and just rationing procedures which eventually might be acceptable to the public at large For this debate much can be learnt from observing the experiences other countries have made with their health care arrangements What kinds of mistakes should be avoided and what might be useful in the different states and perhaps also in the supra national context of an emerging Europe are interesting and important issues

Freedom in the World Adrian Karatnycky, Freedom House's survey of freedom is the most systematic most comprehensive and most reliable survey of the individual's status in the world's political systems Freedom in the World provides an invaluable baseline in assessing the significance of world events Robert L Bartley Editor of The Wall Street Journal Freedom in the World is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 192 nations and 17 related and disputed territories These year end reviews of freedom began in 1955 when they were called the Balance Sheet of Freedom and still later the Annual Survey of the Progress of Freedom This program was expanded in the early 1970s and has been issued in a more developed context as a yearbook since 1978 Since 1989 the Survey project has been a year long effort produced by regional experts consultants and human rights specialists It derives its information from a wide range of sources Most valued of these are the many human rights activists journalists editors and political figures who keep the world informed of the human rights situation in their own countries Throughout the

year Freedom House personnel regularly conduct fact finding missions to gain in depth knowledge of the vast political transformations affecting our world These investigations make every effort to meet a cross section of political parties and associations human rights monitors religious figures representatives of both the private sector and trade union movement academics and journalists Freedom in the World is now the standard reference work for measuring progress or the lack thereof in the process of regime democratization Adrian Karatnycky has directed the annual survey of political rights for Freedom House where he has served as president for the past decade This year s survey team includes Martin Edwin Andersen Kristen Guida Aili Piano Arch Puddington Leonard R Sussman Edward R McMahon Cindy Shiner Amy Wong Amanda Schnetzer Charles Graybow Kendra Zaharescu Gordon Bardos and Michael Goldfarb **Rights and Resources**

Frances H. Miller,2018-05-08 This title was first published in 2003 The fulfilment of health care rights in a world where resources are scarce is a prominent issue In this volume Frances H Miller introduces studies on a wide variety of aspects of this important yet complex process **Can rights cure? The impact of human rights litigation on South Africa's health system** Marius Pieterse,2014-08-01 Can rights cure At a time when South Africa s ailing and dysfunctional health system is on the verge of radical transformation through the mooted introduction of a National Health Insurance scheme and when there are increasing political tensions between government and the courts this book reflects upon the South African experience of judicially enforcing health related constitutional rights It attempts to understand the ways in which rights based litigation has impacted on the operation and transformation of different features of the health system including the formulation and implementation of health laws and policies processes of health resource allocation and rationing the regulation of health care delivery in the private sector and the promotion and protection of public health *100 Miles to Freedom* Robert B. Holland,2011-02-21 In 100 Miles to Freedom U S Marine Bob Holland tells the story of the release of 3 700 American civilian prisoners of the Japanese at Santo Tomas University Internment Camp in Manila the Philippines Until their miraculous rescue on February 3 1945 these civilians had been interned for more than three and a half years This wartime account is complete with interviews of several prisoners describing their experiences and hardships in the camp as well as black and white photos depicting Marines and prisoners during this tumultuous event in history Discover why Brigadier General Robert E Galer says that through this book we can know and better appreciate what our proud and dedicated generation of true Americans did for our country **The Ethics of Health Care Rationing** Greg Bogner,Iwao Hirose,2022-03-16 The rationing of health care is universal and inevitable taking place in both poor and affluent countries in publicly funded and private health care systems Someone must budget for as well as dispense health care whilst aging populations severely stretch the availability of resources The Ethics of Health Care Rationing is a clear timely and much needed introduction to this important topic Substantially revised and updated this second edition includes new chapters on disability discrimination and age discrimination and on the price of drugs and medical therapies Beginning with a helpful

overview of why rationing is an ethical problem the authors examine the following key topics What sort of distributive principles should we rely on when thinking about health care rationing What is the relation between ethics and cost effectiveness in health care How should we think about controversies surrounding discrimination over disability and age How should we approach controversies surrounding rationing and the price of pharmaceutical drugs and medical therapies Should patients be held responsible for their health Why does the debate on responsibility for health lead to issues about socioeconomic status and social inequality Throughout the book examples from the United States the United Kingdom and other countries are used to illustrate the ethical issues at stake Additional features such as chapter summaries annotated further reading and discussion questions have also been updated making this an ideal starting point for students new to the subject not only in philosophy but also in closely related fields such as politics health economics public health medicine nursing and social work

IF FREEDOM MEANS AS MUCH TO YOU J. Garry McEachern, 2013-08-15 If Freedom Means as Much to You is the story of the contribution of the two World Wars by the citizens of the town of Meaford and St Vincent Township The enthusiasm of the first men who signed up is balanced with the pain inflicted by the cruelty on prisoners of war in both wars Letters from England show their pluck during the Blitz Letters from soldiers in all the theatres in both wars bridge the oceans When the Tank Range was created in 1942 the owners of farms and orchards become war refugees Interviews of women who served in the armed services show their accomplishments and interviews of war bride couples reveal the hope of a new life away from the restrictions of rationing in Britain

Militarism and Israeli Society Gabriel Sheffer, Oren Barak, 2010-03-12 Challenging the established view that the civilian sector in Israel has been predominant over its security sector since the state's independence in 1948 this volume critically and systematically reexamines the relationship between these sectors and provides a deeper more nuanced view of their interactions Individual chapters cast light on the formal and informal arrangements connections and dynamic relations that closely tie Israel's security sector to the country's culture civil society political system economy educational system gender relations and the media Among the issues and events discussed are Israel's separation barrier the impact of Israel's military confrontations with the Palestinians and other Middle Eastern states especially Lebanon and the impact of the wars in Iraq and Afghanistan The Israeli case offers insights about the role of the military and security in democratic nations in contemporary times

Freedom to Die Derek Humphrey, Mary Clement, 2000-04-17 The strength of the right to die movement was underscored as early as 1991 when Derek Humphrey published *Final Exit* the movement's call to arms that inspired literally hundreds of thousands of Americans who wished to understand the concepts of assisted suicide and the right to die with dignity Now Humphrey has joined forces with attorney Mary Clement to write *Freedom to Die* which places this civil rights story within the framework of American social history More than a chronology of the movement this book explores the

inner motivations of an entire society Reaching back to the years just after World War II *Freedom to Die* explores the roots of the movement and answers the question Why now at the end of the twentieth century has the right to die movement become part of the mainstream debate In a reasoned voice which stands out dramatically amid the vituperative clamoring of the religious right the authors examine the potential dangers of assisted suicide suggesting ways to avert the negative consequences of legalization even as they argue why it should be legalized
