Herrstrom,2017-09-26 This book is an interdisciplinary synthesis and interpretation about the experience of light as revealed in a wide range of art and literature from Paleolithic to Roman times Humanistic in spirit and in its handling of facts it marshals a substantial body of scholarship to develop an explication of light as a central even dramatic reality of human existence and experience in diverse cultural settings David S Herrstrom underscores our intimacy with light not only its constant presence in our life but its insinuating character Focusing on our encounters with light and ways of making sense of these this book is concerned with the personal and cultural impact of light exploring our resistance to and acceptance of light Its approach is unique The book's true subject is the individual's relationship with light rather than the investigation of light's essential nature It tells the story of light seducing individuals

down through the ages Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions to it as reflected in art Paleolithic through Roman architecture Egyptian Grecian Roman mythology and religion Paleolithic Egyptian and literature e g Akhenaten Plato Aeschylus Lucretius John the Evangelist Plotinus and Augustine This book celebrates the complexity of our relation to light s character No individual experience of light is truer than any other none improves on any previous experience of light s tidal pull on us And the wondrous variety of these encounters has yielded a richly layered tapestry of human experience By its broad scope and interdisciplinary approach this pioneering book is without precedent **Between Light and Storm** Esther Woolfson, 2022-12-06

A landmark examination of the fraught relationship between humans and animals taking the reader from Genesis to climate change Beginning with the very origins of life on Earth Woolfson considers prehistoric human animal interaction and traces the millennia long evolution of conceptions of the soul and conscience in relation to the animal kingdom and the consequences of our belief in human superiority She explores our representation of animals in art our consumption of them for food our experiments on them for science and our willingness to slaughter them for sport and fashion as well as examining concepts of love and ownership Drawing on philosophy and theology art and history as well as her own experience of living with animals and coming to know love and respect them as individuals Woolfson examines some of the most complex ethical issues surrounding our treatment of animals and argues passionately and persuasively for a more humble more humane relationship with the creatures who share our world Keepers of the Animals Michael J.
