Books in the Life of a Child Maurice Saxby, 1997-10-15 Books in the Life of a Child explores the value of books and reading in the stimulation of children's imagination and their fundamental importance in the development of language and true literacy It examines not only the vast range of children's books available but also how to introduce young people to the joys of reading in the home the school and in the community The book has been written as a resource for all adults especially teachers student teachers librarians and parents and those who care about the value of literature for children It is a comprehensive and critical guide with chapters on the history of children's literature and an analysis of its many forms and genres from poetry fairytale myth legend and fantasy through realistic and historical fiction to humour pulp fiction and information books

The Structure of Social Inconsistencies R. Grathoff, 2012-12-06 Few phenomena have found such divergent descriptions in sociological literature as have social inconsistencies They were studied by George Herbert Mead as eruptive natural events constituting a social temporality Alfred Schütz described them as explosions of the individual actor's anticipatory action patterns Talcott Parsons attempted to grasp social inconsistencies into his frame of pattern variables while Erving Goffman dealt with them as disruptions of fostered impressions of reality maintained by one or the other dominant team The present study traces these divergent approaches back to various unchecked assumptions concerning the structure and the constitution of social types Thus to further clarify the relationship between social types and the relevance structure of interactional situations has been my first objective This initially rather limited intention widened when the role of social inconsistencies for analysing the differences between play game and social action proper in the immediate context of social interaction became apparent The structure of social inconsistencies seems to hold a key to unifying the theories of play and social action

A Family of Readers Martha V. Parravano, Roger Sutton, 2012-10-09 Two of the most trusted reviewers in the field join with top authors illustrators and critics in a definitive guide to choosing books for children and nurturing their love of reading A FAMILY OF READERS is the definitive resource for parents interested in enriching the reading lives of their children It's divided into four sections 1 Reading to Them Choosing and sharing board books and picture books with babies and very young children 2 Reading with Them Launching the new reader with easy readers and chapter books 3 Reading on Their Own Exploring what children read and how they read by genre and gender 4 Leaving Them Alone Respecting the reading privacy of the young adult Roger Sutton knows how and why children read He must as the editor in chief of THE HORN BOOK which since 1924 has been America's best source for reviews of books for young readers But for many parents selecting books for their children can make them feel lost Now in this essential resource Roger Sutton and Martha V Parravano executive editor at the magazine offer thoughtful essays that consider how books are read to and then by young

people They invite such leading authors and artists as Maurice Sendak Katherine Paterson Margaret Mahy and Jon Scieszka as well as a selection of top critics to add their voices about the genres they know best The result is an indispensable readers companion to everything from wordless board books to the most complex and daring young adult novels

Monsters Under the Bed and Other Childhood Fears Stephen W. Garber, Ph.D., Robyn Freedman Spizman, Marianne Daniels Garber, 2011-04-13 A step by step manual designed to help parents cope with children s fears Monsters Under the Bed and Other Childhood Fears discusses common fears how to respond to childhood anxieties and other ways to deal with frightened children With the culture getting scarier and parents getting busier there is a growing need to help parents understand and cope with childhood fears This thoughtful and practical work fulfills that need extraordinarily well Stan and Jan Berenstain authors of The Berenstain Bears children s book series This book is about how to respond to your child s fears Most children experience fears of the dark strangers unidentified noises and numerous other things for a short time and then they pass By supporting your child and filling in the gaps in her knowledge you can minimize most of the normal childhood fears many children

experience By preparing your child in advance for the new situations she must meet you may be able to avoid new fears From the Introduction Praise for *Monsters Under the Bed* The authors of *Monsters Under the Bed* have created a great resource for parents to help their children The fun parts that some of the basic wisdom in this book may also apply when the occasional wayward monster slips under an adult bed Sheryl Leach president of The Lyons Group creator of *Barney Fears* often annoy disturb and sometimes even prevent a child from enjoying childhood At no time are fears a laughing matter This book offers parents a variety of clever suggestions on how to help their child slay the ubiquitous monsters that lurk under the bed in the hall and outside the window Today's concerned but busy parents will appreciate the straightforward yet family oriented language of this book Ted Ayllon Ph D professor of psychology and special education Georgia State University author with Mori Freed of *Stopping Baby's Colic* *Teaching Children* Diane D. Lopez, 1988 An excellent educational approach which naturally integrates a Christian world view and scriptural principles *Teaching Children* draws on noted English educator Charlotte Mason and the Child Light approach to learning Child Light puts children in touch with fine literature and teaches them through the use of living books Introduction by Susan Schaeffer Macaulay [Encyclopedia of Library and Information Science](#) Allen Kent, Harold Lancour, 1970-11-01 The *Encyclopedia of Library and Information Science* provides an outstanding resource in 33 published volumes with 2 helpful indexes This thorough reference set written by 1300 eminent international experts offers librarians information computer scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science Impeccably researched cross referenced alphabetized by subject and generously illustrated the *Encyclopedia of Library and Information Science* integrates the essential theoretical and practical information accumulating in this rapidly growing field **The Natural History of Make-Believe** John Goldthwaite, 1996-02-22 The Man in the Moon has dropped down to earth for a visit Over the hedge a rabbit in trousers is having a pipe with his evening paper Elsewhere Alice is passing through a looking glass Dorothy riding a tornado to Oz and Jack climbing a beanstalk to heaven To enter the world of children's literature is to journey to a realm where the miraculous and the mundane exist side by side a world that is at once recognizable and real and enchanted Many books have probed the myths and meanings of children's stories but Goldthwaite's *Natural History* is the first exclusively to survey the magic that lies at the heart of the literature From the dish that ran away with the spoon to the antics of Brer Rabbit and Dr Seuss's *Cat in the Hat* Goldthwaite celebrates the craft the invention and the inspired silliness that fix these tales in our minds from childhood and leave us in a state of wondering to know how these things can be Covering the three centuries from the fairy tales of Charles Perrault to Maurice Sendak's *Where the Wild Things Are* he gathers together all the major imaginative works of America Britain and Europe to show how the nursery rhyme the fairy tale and the beast fable have evolved into modern nonsense verse and fantasy Throughout he sheds important new light on such stock characters as the fool and the fairy godmother and on the sources of authors as diverse as Carlo Collodi Lewis Carroll

and Beatrix Potter His bold claims will inspire some readers and outrage others He hails Pinocchio for example as the greatest of all children s books but he views C S Lewis s The Chronicles of Narnia as a parable that is not only murderously misogynistic but deeply blasphemous as well Fresh incisive and utterly original this rich literary history will be required reading for anyone who cares about children s books and their enduring influence on how we come to see the world
