*The Raymond Tallis Reader* R. Tallis, 2000-09-11 The Raymond Tallis Reader provides a comprehensive survey of the work of this passionate perceptive and often controversial thinker Key selections from Tallis s major works are supplemented by Michael Grant s detailed introduction and linking commentary From nihilism to Theorrhoea from literary theory to the role of the unconscious The Raymond Tallis Reader guides us through the panoptic sweep of Tallis s critical insights and reveals a way of thinking for the twenty first century      [The Raymond Tallis Reader](#) Raymond Tallis, Michael Grant, 2000 The Raymond Tallis Reader provides a comprehensive survey of the work of this passionate perceptive and often controversial thinker Key selections from Tallis s major works are supplemented by Michael Grant s detailed introduction and linking commentary From nihilism to Theorrhoea from literary theory to the role of the unconscious The Raymond Tallis Reader guides us through the panoptic sweep of Tallis s critical insights and reveals a way of thinking for the 21st century      *I Am* Raymond Tallis, 2004 This is the second volume of a three part work which offers a new approach to philosophical questions about selfhood identity freedom of the will agency knowledge and truth      *Michelangelo's Finger* Raymond Tallis, 2011 The ability of the human index finger to point is truly unique in the animal world In Michelangelo s Finger Raymond Tallis shows just how central this seemingly insignificant difference has been in determining the amazing evolutionary pathway of the human being In this startlingly original and persuasive book Raymond Tallis shows that it is easy to underestimate the influence of small things in determining what manner of creatures humans are He reveals that over time the repeated and multiple effects of the seemingly insignificant can make an enormous difference and argues that the independent movement of the human index finger is one such easily overlooked factor Indeed not for nothing is the index finger called the forefinger It is the one we most naturally deploy when we want to winkle things out of small spaces but it plays a far more significant role in an action unique to us among primates pointing In Michelangelo s Finger Raymond Tallis argues that it is through pointing that the index finger made a significant contribution to hominid development and to the creation of a human world separate to the rest of the natural world Observing the ceiling of the Sistine Chapel and the hugely familiar and awkward encounter between Michelangelo s God and Man through their index fingers Tallis identifies an intuitive indication of the central role of the index finger in making us unique Just as the reaching index fingers of God and Man are here made central to the creation of our kind so Tallis believes that the simple act of pointing is central to our extraordinary evolution Publisher description      *The Kingdom of Infinite Space* Raymond Tallis, 2014-05-14 In this pathbreaking book one of Britain s most eloquent and original thinkers writes about the head what happens in it and how it is and is not connected to our sense of identity and consciousness Blending science philosophy and humor Raymond Tallis examines the extraordinarily complex relationship we have with our heads His aim as he says is to turn readers into astonished tourists of the piece of the world that is closest to them so they never again take for granted the head that looks at them from the mirror Readers will delight

that this is precisely what he accomplishes The voyage begins with a meditation on the self portrait of a mirror image followed by a consideration of the head s various secretions Tallis contemplates the air we exhale the subtle meanings of nods winks and smiles the mysteries of hearing taste and smell He discusses the metaphysics of the gaze the meaning of kissing and the processes by which the head comes to understand the world Along the way he offers intriguing digressions on such notions as having and using one s head and enjoying and suffering it Tallis concludes with his thoughts on the very thing the reader s head has been doing throughout the book thinking

*The Black Mirror* Raymond Tallis,2015-01-01 A physician philosopher celebrates the mystery and delight of everyday life from an imagined posthumous perspective In this beautifully written personal meditation on life and living Raymond Tallis reflects on the fundamental fact of existence that it is finite Inspired by E M Forster s thought that Death destroys a man but the idea of it saves him Tallis invites readers to look back on their lives from a unique standpoint one s own future corpse From this perspective he shows the world now vacated can be seen most clearly in all its richness and complexity Tallis blends lyrical reflection humor and the occasional philosophical argument as he explores his own postmortem recollections He considers the biological processes and the senses that opened up his late world and the million nooked space in which he passed his life His inert dispossessed body highlights his ceaseless activity in life the mind boggling inventory of his possessions and the togetherness and apartness that characterized his relationships in the material and social worlds Tallis also touches on the idea of a posthumous life in the memories of those who outlive him Readers who accompany Tallis as he considers his life through death will appreciate with new intensity the precariousness and preciousness of life for here he succeeds in his endeavor to make the shining hour shine more brightly

**Hippocratic Oaths** Raymond Tallis,2015-01-01 In this book the physician and philosopher Raymond Tallis yokes together his diverse intellectual interests to address important questions about our well being In a series of stimulating and impassioned arguments he establishes the truth about among many other things recent health scares explains why patients compete for our doctors and nurses time why the exploding popularity of alternative therapies is actually bad for our health and how one man s view of the MMR vaccine influenced a nation This is the summation of a lifetime s thought and medical practice by one of Britain s most original thinkers It will quite simply change for ever the way we think about ourselves and our health

**Language and the Ineffable** Louis S. Berger,2011-01-20 One s conception of language is central in fields such as linguistics but less obviously so in fields studying matters other than language In *Language and the Ineffable* Louis S Berger demonstrates the flaws of the received view of language and the difficulties they raise in multiple disciplines This breakthrough study sees past failures as inevitable since reformers retained key detrimental features of the received view Berger undertakes a new reform grounded in an unconventional model of individual human development A central radical and generative feature is the premise that the neonate s world is holistic boundary less unimaginable impossible to describe

in other words ineffable completely distinct from what Berger calls adultocentrism The study is a wholly original approach to epistemology separate from the traditional interpretations offered by skepticism idealism and realism The work rejects both the independence of the world and the possibility of true judgment a startling shift in the traditional responses to the standard schema Language and the Ineffable evolves a unique conception of language that challenges and unsettles sacrosanct beliefs not only about language but other disciplines as well Berger demonstrates the framework's potential for elucidating a wide range of problems in such diverse fields as philosophy logic psychiatry general experimental psychology psychotherapy and arithmetic The reconceptualization marks a revolutionary turn in language studies that reaches across academic boundaries

*The Gothic Peckinpah* Tony Williams, 2024-05-03 This book argues for the importance of Gothic in understanding one of the key elements within the films of Sam Peckinpah 1925-1984 Although occasionally noted in the past the Gothic has been generally overlooked when most critics consider the work of Sam Peckinpah with the exception of the Freudian based *Crucified Heroes* 1979 by Terence Butler This work not only examines the films made after that date especially the often dismissed *The Osterman Weekend* 1983 and the two music videos he made for Julian Lennon but also places the director within the context of the developing work on Gothic that has since appeared Peckinpah has been identified as the director of one undisputed masterpiece *The Wild Bunch* 1969 By focussing on the key role Gothic plays in most of the director's work this book offers a way to see Peckinpah beyond *The Wild Bunch* and the Western viewing him as a director who had the potential of evolving further had circumstances permitted to continue his critique of American life within the developing lens of the Gothic

How Literary Worlds Are Shaped Bo Pettersson, 2016-09-12 Literary studies still lack an extensive comparative analysis of different kinds of literature including ancient and non-Western *How Literary Worlds Are Shaped: A Comparative Poetics of Literary Imagination* aims to provide such a study Literature it claims is based on individual and shared human imagination which creates literary worlds that blend the real and the fantastic mimesis and genre often modulated by different kinds of unreliability The main building blocks of literary worlds are their oral visual and written modes and three themes challenge perception and relation They are blended and inflected in different ways by combinations of narratives and figures indirection thwarted aspirations meta-usages hypothetical action as well as hierarchies and blends of genres and text types Moreover literary worlds are not only constructed by humans but also shape their lives and reinforce their sense of wonder Finally ten reasons are given in order to show how this comparative view can be of use in literary studies In sum *How Literary Worlds Are Shaped* is the first study to present a wide-ranging and detailed comparative account of the makings of literary worlds
