The Energies of Love Donna Eden,David Feinstein,2016-01-19 The bestselling authors of *Energy Medicine* and *Energy Medicine for Women* present a complete program for using energy medicine to heal and strengthen romantic relationships A relationship begins with the meeting of two unique energies This union of energies though invisible determines the way you communicate fight love and want to be loved In this groundbreaking book the bestselling authors of *Energy Medicine* draw on the real life experiences of couples who have attended their popular *Energies of Love* workshops as well as their own experience as husband and wife to show how an understanding of your energy system and that of your partner can help you build a more harmonious and loving bond We all have different ways of making sense of the world around us but when faced with conflict especially with those we care most about we tend to revert to one of four Energetic Stress Styles Visuals are extremely passionate and inspire others to care about the things they care about but in moments of conflict their take on the situation can overshadow what is actually occurring undermining their ability to empathize with their partner Kinesthetics are generous compassionate and accepting of other people but their caring nature pulls them in too many directions They try to

meet others needs at the expense of their own which can cause mounting resentment Digital are rational and principled and have a gift for quickly understanding complex situations but they can become closed to others perspectives and feelings Tonals have a gift for understanding others and their dilemmas but during moments of conflict their ability to read between the lines can morph into hearing what was never said felt or thought According to the authors the strongest relationships are those in which the two parties feel that they are partners on a shared spiritual journey By helping you better understand your own unique energy system as well as that of your partner you will be able to recognize your strengths as a couple and avoid the pitfalls The Energies of Love serves as a powerful resource for anyone who wishes to build a rich partnership while maintaining the spark that keeps a relationship exciting *Consuming Experience* Antonella Caru, Bernard Cova, 2013-01-11

This book covers the hot topic of the experiential consumption in an accessible manner and from a unique industry perspective which is not used in any other book It highlights the idea that an experience is not something that can be readily managed by firms and is not limited to the market an individual s daily life is made up of consuming experiences that can occur with or without a market relation Offering an overview of the consumption experience it outlines a continuum of experiences of consumption that consumers go through including those that are mainly constructed by consumers around small items that comprise their daily life such as organic products and non profit or local associations those that have been co developed by companies and consumers tourism or adventure projects rock concerts and cultural events those that have been largely developed by the companies where consumers are immersed in a hyper real context such as fashion sports brands edutainment and retail Broad and comprehensive this book provides a challenging vision of the consumption experience which is an invaluable tool for all those studying marketing and consumer behaviour *The Prophetic Call to Love and Justice* Arnold H. De Graaff, 2025-06-20 Scripture s compelling message of love and justice is powerfully relevant for today The implications of the Amsterdam way of interpreting Scripture are evident throughout the book It is both a personal and timely way of speaking to our disintegrating society The Prophetic Call to Love and Justice provides a meaningful and radical yet simple way of re connecting with the Bible As one of the founders of the Amsterdam way of interpretation Karel Deurloo stated The opportunity to learn anew and understand the language of the Bible has been taken away Often the focus is on the assumed origin and history of a text a historical literary approach or a fundamentalist view creating a fragmented moralistic and doctrinaire emphasis which has alienated many from churches Instead Deurloo and others focused on the prophetic meaning that speaks to all of us as the living word of God today This alternative is rooted in the Hebrew Scriptures Its abiding prophetic message of love and justice is reiterated in the Gospels and apostolic letters Hence the choice of subtitle Rediscovering the Old Testament It is a joyful journey of discovery finding new meaning in the Bible for our lives

used to describe where and how one lives This book challenges predominant definitions and argues that domesticity fundamentally satisfies the human need to create and inhabit a defined place in the world Consequently house and home have performed numerous cultural and ontological roles and have been assiduously represented in scripture literature art and philosophy This book presents how the search for home in an unpredictable world led people to create myths about the origins of architecture houses for their gods and house tombs for eternal life Turning to more recent topics it discusses how writers often used simple huts as a means to address the essentials of existence modernist architects envisioned the capacity of house and home to improve society and the suburban house was positioned as a superior setting for culture and family Throughout the book house and home are critically examined to illustrate the perennial role and capacity of architecture to articulate the human condition position it more meaningfully in the world and assist in our collective homecoming On

Living in an Old Country Patrick Wright,2009-02-26 The hulk of Henry VIII s flagship is raised from the seabed in an operation that captures the mind of the nation The leader of the Labour party wears an informal coat at the Cenotaph and provokes a national scandal An elderly lady whose ancient house is scheduled for demolition dismantles it piece by piece and moves it across the country On Living in an Old Country probes such apparently fleeting and disconnected events in order to reveal how history lives on not just in the specialist knowledge of historians archaeologists and curators but as a tangible presence permeating everyday life and shaping our sense of identity It investigates the rise of heritage as expressed in literature advertising and political rhetoric as well as in popular television dramas conservation campaigns and urban development schemes It explores the relations between the idea of an imperilled national identity and the transformation of British society introduced by Margaret Thatcher This is the book that put heritage on the map opening one of the defining
