

Social Problem Solving Workbook

Reaction V. Problem Solver:

When you react to something, you do not think your options through. If someone were to hit me, I may react—without thinking—by hitting them back.

The problem with reacting is that we don't spend time thinking about the consequences of our actions, and that's how we often get us in trouble or leave us feeling bad about ourselves. For example, if my friend and I yell at each other about it, we won't get to go to my friend's house.

Problem solving is identifying the problem, thinking of ways to solve it. In problem solving, you are able to make much better choices out of trouble and feeling better.

What are three times you have reacted?
