 The Boy Crisis is cited often in educational and news reports due to the consistent reading achievement gap for boys and the
 statistics paint a dismal picture of boys in school Politicians and researchers often focus on boys low scores on reading
 achievement tests and compare these scores to the girls scores with little consideration for the actual reading lives of boys As
 a result adolescent boys vernacular reading is most often misunderstood This book documents my journey as a mother of
 three boys and teacher of adolescents as I attempt to articulate both the in school and out of school experiences of boys The
 book describes my attempts at creating a more complete picture of the reading lives and experiences of adolescent boys by
 describing three boys and their reading experiences in their natural contexts It provides a rich description revealing
 disconnects between school literacy practices and boys vernacular literacy practices In this book parents administrators and
 teachers will find discover the complexity of boys as readers challenging educators to pursue effective practice and
 curricular decisions which go beyond the quick fixes for the boy problem so often seen in response to low test scores This
 book provides parents administrators and teachers with an in depth description of three boy readers What emerges is a
 description of the complexity of boys as readers challenging educators to pursue effective practice and curricular decisions
 which go beyond the quick fixes for the boy problem so often seen in response to low test scores Teachers interested in
 mentoring boy readers will find this book helpful This book can also be used with pre service and in service teachers in
 undergraduate and graduate courses and in professional development *Approaches to Greek Myth* Lowell
