**Integrated Education and Learning** Nima Rezaei, 2023-01-01

*Integrated Education and Learning* aims to discuss novel approaches to offer integrated educational methods. Within the last few years educational techniques have evolved to favour critical thinking and improve learning skills. This volume links thinking and learning in educational settings and discusses diverse mechanisms that influence this association including meta-cognitive capacity memory cognitive style conceptual approaches digitalization teaching approaches echoing and questioning. It embraces this discussion at all levels from early childhood education to higher education. This book also includes teaching tips for creating a learning environment that cultivates students' creativity and critical thinking on both online platforms and live in classroom. The book follows discussing the merits of an integrated educational paradigm that will help develop highly intellectual thinkers and will promote modern values to face current and future challenges. Finally, the book shows a balance between learning and education to enhance creativity critical thinking and social skills.

*Shaping the Learning Curve* Franklin G. Mixon Jr., Franklin Mixon Jr., 2005

This edited volume contains a collection of essays that reflect a broad area of economic education inquiry ranging from teaching assessment to the philosophy of the classroom. Written by economics scholars from across the nation, this volume presents recent discoveries in presentation assessment and other aspects of economic education at colleges and universities in the U.S. These articles represent but a sample of the growing commentary among academics on the importance of effective teaching and economic education scholarship.
