# Reading Biography

**Carl Rollyson**

## Reading Biography:

*Reading Biography* Carl Rollyson, 2004-11-25 Most book reviewers know very little about the history or the art of biography. Indeed, if there is any art in biography, it is the rare reviewer that acknowledges it or knows how to discuss it. Usually, the reviewer regards biography as an occasion to wax eloquent about what he or she thinks of the subject. Little space, if any, is devoted to the biography's structure or style, to the biographer's peculiar problems, or to how the biography relates to others about the same subject. Carl Rollyson, a professional biographer and weekly columnist on Biography for The New York Sun, explores the ramifications of authorized and unauthorized biographies, investigates the relationship between biography and history, biography and fiction, biography and autobiography, as well as commenting on certain perennial biographical subjects such as Napoleon, on sub-genres such as children's biography, and on the most recent developments in life writing. Rollyson's aim is to reach not merely scholars but that vast general audience addicted to reading biography, enhancing their pleasure by providing insight or, you might say, the inside word on how biographies are put together. [Read On...Biography](#)

Rick Roche, 2012-03-07 Categorizing hundreds of popular biographies according to their primary appeal: character story, setting, language, and mood, and organizing them into thematic lists, this guide will help readers, advisors, more effectively recommend titles. *Read On: Biography Reading Lists for Every Taste* is that essential go-to readers' advisory guide filling a gap in the growing readers' advisory literature with information about 450 biography titles most published within the last decade but also including some classic titles as well. The book focuses on life stories written in the third person with subjects ranging from individuals who lived in ancient times to the present day, hailed from myriad nations and gained fame in diverse fields. The contents are organized in order to facilitate identification of read-alikes and easy selection of titles according to appeal features such as character story, language, setting, and mood. Written specifically with librarians and their patrons in mind, this readers' advisory title will be invaluable in public, high school, and college libraries. **Literary Biography**

Provides up-to-date and comprehensive coverage of issues and controversies in life writing, a rapidly growing field of study. Offers a valuable biographical and historical context for the study of major classic and contemporary authors. Features an interview with Wilfred Owen's biographer Dominic Hibberd, a gallery of literary portraits with commentaries, close readings that illustrate the differences between fiction and biography, speculation about likely future developments, and detailed suggestions for further reading. *Designing and Using Rubrics for Reading and Language Arts, K-6* Joan F. **British Biography** Carl Rollyson, 2005-07-14 Biography as a literary genre is largely the product of the eighteenth century and of one seminal work James Boswell's Life of Samuel Johnson 1791 Boswell's innovations revolutionized the genre and made it the target of suppression and censorship He sought not only to memorialize a great man but also to reveal his flaws Boswell reported long stretches of Johnson's conversation noted his mannerisms and in general gave an intimate picture such as no biography had ever before dared to attempt After Boswell there was a retreat from his bolder innovations which amounted to self censorship on the biographer's part When Thomas Carlyle's biographer James Anthony Froude braved this trend against truth and allowed his subject's dark side to show he was vilified in the press The tensions between discretion and candor have endured in British biography since Froude a point Carl Rollyson makes in the reviews of contemporary British biographers he includes in British Biography which also contains Johnson's full length biography of Richard Savage excerpts from Boswell's Life of Johnson as well selections from and commentaries on Southey's biography of Nelson Mrs Gaskell's biography of Charlotte Bront and the revolutionary work of Froude and Strachey

**American Biography** Carl Rollyson, 2006-02 This collection of reviews selected from Rollyson's New York Sun column is as much about the romance of biography as it is about the American lives Certain concerns resonate throughout the book the American left's failure to reckon with Communist subversion McCarthyism and Stalinism the problematic nature of authorized biography the history of American biography definitive biographies literary biography the differences between autobiography and biography the importance of interviews in biographies of contemporary figures the differences between history and biography comparative biographies the virtues of short biographies and of biographies for children the tendency of biographers to fictionalize and of novelists to biographize psychology and biography Rollyson's own experience as a biographer and the way biographers treat one another's work Too many biographers he believes evince no interest in the biographical tradition Concerned only with possession of their subjects their proprietorial attitude deforms not only their biographies but also the genre itself If biography is reviewed badly receiving hardly more than a summary of the subject's life with a perfunctory nod to the

biographer it is because the biographical tradition has been disregarded or discounted This book in other words has been written on the behalf of biography a genre that still awaits a full vindication      *A Child's Guide to Reading* John Albert Macy,1909      *How to Read Texts* Neil McCaw,2013-09-26 Now in its second edition How to Read Texts introduces students to key critical approaches to literary texts and offers a practical introduction for students developing their own critical and close reading skills Written in a lively jargon free style it explains critical concepts approaches and ideas including Debates around critical theory The role of history and context The links between creativity and criticism The relationship between author reader and text The new edition now includes guidance on analysing a range of multi media texts including film and online media as well as the purely literary In addition to new practical examples readings exercises and checkpoints that help students to build confidence in their own critical readings of both primary and secondary texts the book now also offers guidance on writing fully formed critical essays and tips for independent research Comprehensively updated and revised throughout How to Read Texts is an indispensable guide for students making the transition to university study      Classical Arabic Biography Michael Cooperson,2000-05-25 Pre modern Arabic biography has served as a major source for the history of Islamic civilization In this 2000 study exploring the origins and development of classical Arabic biography Michael Cooperson demonstrates how Muslim scholars used the notions of heirship and transmission to document the activities of political scholarly and religious communities The author also explains how medieval Arab scholars used biography to tell the life stories of important historical figures by examining the careers of the Abbasid Caliph al Ma mun the Shiite Imam Ali al Rida the Sunni scholar Ahmad Ibn Hanbal and the ascetic Bishr al Hafi each of whom represented a tradition of political and spiritual heirship to the Prophet Drawing on anthropology and comparative religion as well as history and literary criticism the book considers how each figure responded to the presence of the others and how these responses were preserved by posterity      *Literary Intention, Literary Interpretations, and Readers* John Maynard,2009-04-17 This accessible personal and provocative study returns to the major subject in literary discussion before and during the relatively recent flourishing of literary theory that of literary intention Does the author s personal intention or historical site determine a correct interpretation of a literary work Probing the entire range of issues connected with this many faceted and knotty concept this book engages with interpretation on both theoretical and practical levels It argues that the hard questions about interpretation connected to issues of intention cannot be sidestepped or ignored It does not argue for conservative concepts of literature itself nor against the major historical engagements of critics in our time But in addressing those who continue to read or teach literature it does insist on a level of sophistication in issues of literary interpretation that cannot be assured by historical research and knowledge of the social and cultural connections to literary works The overall aim of the work is to recall readers to the great complexity pleasure and interest of literary interpretation      **How to Read a Book** Mortimer J.
