barrenness appalled some early visitors What was pretty about the jagged cliffs and bare rock with their garish colors and terrifying abysses It wasn't just aesthetics that made the Grand Canyon's path to becoming a national park rocky Minors wanted to keep searching for potential fortunes in the nooks and crannies of the canyon A handful of independent minded settlers who had made makeshift houses near the rim to enjoy the peace and solitude weren't excited about the prospect of tourists Railroads had already built their own hotels and didn't want the National Park Service to benefit from an influx of visitors But somehow these hurdles were overcome because the Grand Canyon became a national park on February 26 1919

Events that Changed the Course of History: The Story of the Transcontinental Railway 150 Years Later

Anyone Pierucci ,2020-01-14 In the 21st century it s easy to get from New York to California take a road trip board a plane or hop on a train you ll be there in no time The continental United States is separated by mere hours But back in the 19th century a journey from New York to California required voyaging around the entire continent by sea in disease and vermin infested ships or trekking across great stretches of unknown wilderness by covered wagon a perilous journey that could take up to a year But the completion of the transcontinental railroad in 1869 changed everything Travel was no longer relegated to the very rich or the very courageous The average American could now make the coast to coast expedition in a matter of days for less than 150 It may seem like a railroad that spanned the massive continent was an obvious solution but it

wasn't as simple as just laying some tracks. Such a feat was a high risk business venture that most couldn't envision ever being completed. The transcontinental railway was possible because of dreamers like Asa Whitney and Theodore Judah, the cutthroat businessmen who invested monetarily and the millions of laborers who invested their own blood, sweat, and tears into an unimaginably immense and momentous display of human ingenuity. Events That Changed the Course of History: The Story of the Transcontinental Railway 150 Years Later follows the transcontinental railway's history from the creation of the Central Pacific and Union Pacific companies and the backroom dealing that made them possible to the Credit Mobilier scandal and strikes on the front lines that threatened to upend the entire project. The transcontinental railway changed the course of history, setting us on a path to expansion that opened the door to the West like never before. Take a journey and learn more about the unimaginably immense and momentous display of human ingenuity that forever changed American life.

Story World and Photodramatist, 1924 Things That Changed the Course of History: The Story of the Invention of the Typewriter 150 Years Later Hannah Sandoval, 2017. Maybe you've never used a typewriter yourself, but you've probably seen a movie set sometime in the 20th century that features a room full of them. Perhaps you've heard the distinctive clickety clack of the machine, the loud ping when the typists get to the end of the line, and the gentle swoosh as the typists start all over again. For those of us who grew up with computers, typewriters have an undeniable fascination, but let's stop trying to think of the typewriter as something that is vintage. Let's start considering it as the amazing technological development that it was and is. To this day, keyboards follow the QWERTY format because Christopher Latham Sholes, the inventor of the typewriter, designed his keyboards this way. Women were able to enter the workforce with decent paying jobs because being a typist was deemed an acceptable position for women. The industrialization of the economy was helped along by this more sophisticated device. Not only is the typewriter the direct predecessor of the computer, which has completely changed the way we communicate, but it's also a charming machine in its own right with its clickety clack ping and swoosh. Experience the story of the invention of the typewriter with help from our featured guests: Linda Deutsch, famed former Associated Press reporter; Dorothy Portnoy, long time typing teacher in Manhattan; and Steven Hausman, technology consultant and former Deputy Director for the National Institute of Health. 10/19/2016 12:00:00 AM People Who Changed the Course of History: The Story of Alexander Hamilton 265 Years After His Birth Antone Pierucci, 2018-11-20
