Look What You Can Do With Grids:

Grid James Wolanyk, 2015-03-17 Those who have lights have power That's the truth the city state of Grid 76 has come to know For years 76 has been the safest and most decadent bastion of the rebuilt grid fortresses a far cry from the violence beyond its walls The Grid is a monument to the tenacity of its citizens the brutality of urban enforcers and the engineering brilliance of a man named Peter Fletcher But 76 is changed when Fletcher puts compassion over protocol and shelters two outsiders a woman named Roux and her sister Sarah Seemingly innocent at first Roux's secrets emerge when hacked military drones and Kevlar bundled guerrillas appear in pursuit In the aftermath of the first attack the city's leadership accuses Roux of being more than a refugee To the urban enforcers she's a traitor To Fletcher she's a second chance to protect the family he once failed Loyalties fracture as defense becomes desperation With an assault from the outside and mutiny inside Fletcher must draw battle lines on both sides of the walls In the growing darkness of winter a new truth emerges Even the brightest lights eventually burn out *Grid Seekers (Grid Seekers Book One)* Logan Byrne, 2015-11-23 In a dystopian future WorldNet a semi autonomous evolved form of the Internet controls daily life WorldNet allows people to plug themselves in transporting their minds and sensory organs into what citizens call the grid while their physical bodies stay put Inside WorldNet they can shop bank dine travel and do everything they can do in the real world and although WorldNet itself is free there's a cost for doing business Any citizen aged sixteen to sixty who accesses WorldNet during the year is entered into a lottery Twenty four people four from each of six megacities are randomly chosen to compete in an annual televised competition in which they're plugged in and forced to search for one of two hidden talismans If they fail to find one of the talismans or if they die in the process they're sentenced to three years of hard labor But if they win they're granted one wish any wish that could completely change their lives or the world Alexia Meyers a seventeen year old from New York City hardly has any chance of being drawn in the lottery after all she lives in a megacity of millions When Alexia is chosen though her entire world crashes and she realizes that her life is going to change in the worst of ways She's quickly taken to train for the competition where she learns self defense survival and strategic tactics for surviving and winning the competition Alexia and her partner Liam must learn to work together to outwit their competitors and find the talismans but they quickly learn it won't be easy especially when another team decides to take Alexia and Liam down This is the first book in a planned trilogy teen dystopian young adult dystopian dystopian romance teen dystopian romance young adult dystopian romance cyberpunk cyberpunk romance cyberpunk series dystopian dystopian series teen dystopian series teen science fiction science fiction young adult science fiction science fiction series *Building JavaScript Games* Arjan Egges, 2014-09-30 Building JavaScript Games teaches game programming through a series of engaging arcade style games that quickly expand your JavaScript and HTML5 skills JavaScript is in the top ten most used programming languages world wide and is the basis for applications that can run in any modern browser on any device from smart phone to tablet to PC Especial emphasis is given to touch based interface

but all games also run using a regular mouse and keyboard setup The four games you ll develop from reading this book are Painter Jewel Jam Penguin Pairs Tick Tick These four games are casual arcade style games representing the aim and shoot puzzle maze and platform styles of game play The approach in Building JavaScript Games follows the basic structure of a game rather than the syntax of a language From almost the very first chapter you are building games to run on your phone or other device and show to your friends Successive projects teach about handling player input manipulating game objects designing game worlds managing levels and realism through physics All told you ll develop four well designed games making Building JavaScript Games one of the most enjoyable ways there is to learn about programming browser based games The final chapters in the book contain a very nice bonus of sorts In them you will find excerpts from interviews with two prominent people from the game industry Mark Overmars who is CTO of Tingly Games and creator of GameMaker and Peter Vesterbacka the CMO of Rovio Entertainment the creators of the Angry Birds franchise Their insight and perspective round off what is already a fun and valuable book
