Look Out Earth Below:

Stars Above, Earth Below Tyler Nordgren, 2011-01-28 *Stars Above Earth Below* uses photographs and sky charts to form a connection between what is seen on the ground and in the sky and looks at the deeper scientific meaning behind these sights Nordgren describes other objects in the Solar System with features similar to those on Earth and links the geological features seen in the national parks to the very latest NASA spacecraft discoveries on other planets and their moons Additionally historical context is discussed to show why we humans who have lived in and around our national parks for tens of thousands of years have always been astronomers The first book to make direct connections between astronomy and the landscapes processes and cultures one experiences in the US National Parks Each chapter ties a specific astronomical phenomenon to a particular National Park or type of park and concludes with a See for yourself section that shows you how to see the planets stars nebulae moons etc that are described within that chapter A personal guide showing the reader the astronomical phenomena that you can see for yourself when visiting the U S National Parks **Lookout** Trina Moyles, 2021-03-30 A page turning memoir about a young woman s grueling revelatory summers working alone in a remote lookout tower and her eyewitness account of the increasingly unpredictable nature of wildfire in the Canadian north While growing up in Peace River Alberta Trina Moyles heard many stories of Lookout Observers strange eccentric types who spent five month summers alone climbing 100 foot high towers and watching for signs of fire in the surrounding boreal forest How could you isolate yourself for that long she wondered I could never do it she told herself Craving a deeper sense of purpose she left northern Alberta to pursue a decade long career in global humanitarian work After three years in East Africa and newly engaged Trina returned to Peace River with a plan to sponsor her fiance Akello s immigration to Canada Despite her fear of being alone in the woods she applied for a seasonal lookout position and got the job Thus begins Trina s first summer as one of a handful of lookouts scattered throughout Alberta with only a farm dog Holly labeled a domesticated wolf by her former owners to keep her company While searching for smoke Trina unravels under the pressure of a long distance relationship and a dawning awareness of the environmental crisis that climate change is producing in the boreal Through megafires lightning storms and stunning encounters with wildlife she learns to survive at the fire tower by forging deep connections with nature and with an extraordinary community of people dedicated to wildfire detection and combat In isolation she discovers a kind of self awareness and freedom that only solitude can deliver Lookout is a riveting story of loss transformation and belonging to oneself layered with an eyewitness account of the destructive and regenerative power of wildfire in our northern forests *Stories of the Raksura: The Dead City & The Dark Earth Below* Martha Wells, 2015-06-02 Moon Jade and other favorites from the Indigo Cloud Court return with two new novellas from Martha Wells Martha Wells continues to enthusiastically ignore genre conventions in her exploration of the fascinating world of the Raksura Her novellas and short stories contain all the elements fans have come to love from the Raksura books courtly intrigue and politics
