outstanding theologians in one volume *Suggestive Therapeutics* Hippolyte Bernheim, 1900 Optical Play Julia Bekman Chadaga, 2014-10-31 Longlist finalist 2015 Historia Nova Prize for Best Book on Russian Intellectual and Cultural History

Julia Bekman Chadaga's ambitious study posits that glass in its uses as a material and as captured in culture is a key to understanding the evolution of Russian identity from the eighteenth century onward. From the contemporary perspective it is easy to overlook how glass has profoundly transformed vision. Chadaga shows the far-reaching effects of this phenomenon. Her book examines the similarities between glass and language, the ideological uses of glass and the material's associations with modernity while illuminating the work of Lomonosov, Dostoevsky, Zamyatin, and Eisenstein among others. In particular, Chadaga explores the prominent role of glass in the discourse around Russia's contentious relationship with the West by turns admiring and antagonistic as the nation crafted a vision for its own future. Chadaga returns throughout to the spectacular aspect of glass and shows how both the tendentious capacity and the playfulness of this material have shaped Russian culture.

American Motorist, 1924 **Conversations on Natural Philosophy, in which the Elements of that Science are Familiarly Explained** Thomas P. Jones, Mrs. Marcet, 2022-08-01

In *Conversations on Natural Philosophy in which the Elements of that Science are Familiarly Explained*, readers are invited to traverse the intricate landscapes of early scientific thought underscored by a robust dialogue that demystifies complex principles. The collection embraces a conversational approach, rendering the abstract tangible through engaging discussion. By blending explanations of natural phenomena with illustrative exchanges, the anthology captures the spirit of inquiry during a transformative era in scientific exploration. Standout sections include vivid portrayals of fundamental concepts that highlight the gravity of scientific discovery in everyday life, making the fundamental tenets of natural philosophy accessible to readers of all backgrounds. The contributors, notably Thomas P. Jones and Mrs. Marcet, are anchored in the rich tradition of nineteenth-century didactic literature, serving as both pioneers and educators of scientific knowledge. Their combined endeavors in elucidating philosophical elements mirror the burgeoning curiosity of their time, a period marked by significant advancements in the natural sciences. This anthology exemplifies a commitment to the democratization of knowledge, where a collective of intellectuals strives to bridge the gap between emerging scientific discourse and the lay audience, thus reflecting the broader educational movements of their era. This collection is an indispensable resource for readers eager to explore the storied intersections of dialogue and discovery. It stands as a testament to the enduring relevance of natural philosophy, capturing the evolving dialogue between human curiosity and scientific understanding. By immersing oneself in these engaging exchanges, readers gain not merely an appreciation of scientific principles but also an insight into the historical context that shaped modern thought. A multifaceted journey into the heart of scientific inquiry, the anthology is a beacon for those seeking to comprehend the richness and depth of early scientific conversations.
