Looking Into Primary Headship A Research Based Interpretation:

Looking Into Primary Headship Geoff Southworth, 2002-11-01 This is both a study of leadership and a research methods text. It offers an analytical description of a primary headteacher at work over the course of one school year. Using a mix of participant observation and interviews, the book provides a portrait of this head's approach to his work, his background, beliefs, the school as a context, what he did, how he dealt with change and development, power, and the personal dimension of headship. The portrait is matched to the contemporary literature and an hypothesis is formulated about primary headship and is then used to critique existing ideas about school leadership. The book also suggests ways of developing heads and school teachers.

School Leadership and Administration Allan Walker, Clive Dimmock, 2012-11-12 This text calls for a broader approach to comparative educational administration, one which uses culture as the principle means of analysis. The articles collected by Allan Walker and Clive Dimmock detail the educational practices and outcomes of other systems while taking into account the mediating influence of culture. In this way, these essays stress the specific aspects of the cultures studied and map out common ground for the study of administrators' values, beliefs, and actions.

Primary School Leadership in Context Geoff Southworth, 2004 In this important new book, Geoff Southworth, a leading researcher in headship, specifically addresses how school size impacts on the role of the headteacher.

performed a great service in making this literature accessible to the profession I recommended the First Edition as essential reading for all the work in schools Those who did not do so should certainly acquire the second but it is important that policymakers and academics do the same This book will quickly gain recognition as the leader among an increasing number of books that provide hope that all students in every setting can achieve a high quality education It is one of the truly outstanding features of this book that it also conveys an unbridled spirit of optimism Brian Caldwell Professor to be the type of school that can synthesise different kinds of knowledge experience and ideas in order to be confident about current achievements and to be able to decide what to do next This Second Edition has been fully revised and updated particularly in terms of new research evidence about how to improve the quality of learning and teaching in classrooms The authors set out fresh thinking about the nine intelligences and provide a new framework for school improvement which includes the exploration of spiritual ethical and emotional intelligence The book also includes examples of Intelligent Schools in action
