Goetz, 2014-01-10 The Spanish language has a long and rich history from its prehistoric roots to its position today as the mother tongue of nearly 400 million inhabitants of 21 countries How the language originated how it evolved and how it is

spoken today around the world makes for a fascinating story that greatly enhances the study of written and spoken Spanish. This Spanish language text covers the history of Spanish from its pre Roman and Latin roots to its standardized form and its many regional variations. Along the way, discussion covers the spread of Latin on the Iberian Peninsula, the development of romance dialects due to a number of sociolinguistic influences, and the process of creating a standard variety of Spanish. It concludes with a discussion of the origin and the range of dialects that are spoken across the vast geographical area that forms the Spanish speaking world. Details of pronunciation, spelling, grammar, and vocabulary are explained in their historical context, giving the student of Spanish a deeper understanding of the language as a whole. Perfect for students of Spanish as well as Spanish speaking readers seeking to expand their general knowledge of the language, this book also includes a glossary of basic linguistic terms discussed in the text. La lengua española tiene una rica y larga historia desde sus raíces prehistóricas hasta su estado actual como la lengua materna de casi 400 millones de habitantes en 21 países. El cómo se originó, cómo evolucionó y cómo se habla hoy en día alrededor del mundo contribuye a una historia fascinante que complementa el estudio del español escrito y hablado. El presente texto en lengua española trata la historia del español desde sus raíces prerromanas y latinas hasta su forma estandarizada y sus múltiples variantes regionales. A lo largo de la narrativa se cubre la expansión del latín en la Península Ibérica, el desarrollo de los dialectos romances debido a una serie de influencias de tipo sociolingüístico y el proceso de crear una variante estándar del español. El libro concluye con una discusión de los orígenes y de la variedad de dialectos que se hablan en la vasta zona geográfica que comprende el mundo hispanohablante. Los pormenores de la pronunciación, la ortografía, la gramática y el vocabulario se explican dentro de su contexto histórico y proporcionan al estudiante del español un entendimiento más profundo de la lengua en su totalidad. El libro es perfectamente adecuado para los estudiantes del español tanto como para otros lectores hispanohablantes que desean aumentar sus conocimientos de la lengua e incluye también un glosario de los términos lingüísticos elementales que se tratan en el texto. Variedades de la lengua española Francisco Moreno-Fernández, 2019-12-06. Variedades de la lengua española ofrece un panorama general de la variación dialectal y sociolingüística en el espacio hispanohablante, presentado por uno de los más prestigiosos expertos en la materia. La lectura de este manual permite familiarizarse con los rasgos que distinguen las diferentes variedades geográficas del español con una comprensión adicional de las causas históricas y políticas de sus diferencias y de sus implicaciones sociales. Cada capítulo incluye sugerencias de lecturas complementarias y propone temas de debate e investigaciones, como un glosario que explica la terminología algo más especializada. Complementariamente el

texto remite a materiales audiovisuales disponibles en la red que permiten una aproximación directa a las variedades del español. Estas páginas son de interés tanto para los hispanohablantes nativos como para los no nativos interesados por la diversidad dialectal. Asimismo, esta obra puede servir como texto primario de apoyo o complementario para los estudiantes del profesorado y los hispanistas interesados por el conocimiento de las variedades geográficas y sociales de la lengua española.

Esperanza de España Manuel García Morente, *Esperanza de España* reúne dos conferencias de Manuel García Morente sobre filosofía de la historia de España representativas por los acontecimientos que las separan del itinerario personal e intelectual de su autor. *Esperanza de España* la primera pronunciada en 1934 en Tetuán es inédita por lo que su publicación constituye una significativa novedad en la bibliografía de quien fuera uno de los más grandes filósofos españoles del siglo XX. Se trata del mismo texto anterior a su recuperación de la fe católica en 1937 dedicado específicamente al problema de España que a partir de la conversión ser una de las líneas fundamentales de su dedicación intelectual. La segunda más extensa y ya publicada anteriormente *Ideas para una filosofía de la historia de España* es de 1942, dos meses antes de su muerte y ha sido considerada su testamento literario y el cierre de su conversión. La lectura de ambas conferencias hace descubrir un arco de significado de la evolución de la actitud vital y el pensamiento de Morente. Permanecen su rica filosofía de la historia y su teoría general de la cultura. Y aunque son significativas las coincidencias más lo son las diferencias como apuntó su discípulo Julián Marías la apertura a la trascendencia completa su pensamiento anterior sin afectar a las líneas capitales de sus convicciones filosóficas.

Literatura española contemporánea (1898-1950) Juan Chabás, Carmen Valcárcel, 2001-01-01. Esta edición rescata una de las realizaciones más ambiciosas del exilio republicano y por extensión de la España de posguerra. Publicada en La Habana en 1952, la obra no puede comprenderse en su total significación sin atender al compromiso sociopolítico que representa así como al método que aplica que no son otros en primer lugar que la concreción de una crítica militante y en segundo la coherente conjunción de la estilística y los principios de la doctrina marxista.
