Lost Angels Psychoanalysis And Cinema:

Lost Angels Vicky Lebeau, 2005-06-29 With readings of key youth films of the 1980s this book expands the psychoanalytic framework within which current debates regarding fantasy and spectatorship have been taking place *Psychoanalysis and Cinema* Vicky Lebeau, 2019-07-25 Lebeau examines the long and uneven history of developments in modern art science and technology that brought psychoanalysis and the cinema together towards the end of the nineteenth century She explores the subsequent encounters between the two the seductions of psychoanalysis and cinema as converging though distinct ways of talking about dream and desire image and illusion shock and sexuality Beginning with Freud's encounter with the spectacle of hysteria on display in fin de siècle Paris this study offers a detailed reading of the texts and concepts which generated the field of psychoanalytic film theory **Cinema and Intermediality** Ágnes Pethő, 2011-05-25 Within the last two decades intermediality has emerged as one of the most challenging concepts in media theory with no shortage of various taxonomies and definitions What prompted the writing of the essays gathered in this volume however was not a desire for more classifications applied to the world of moving pictures but a strong urge to investigate what the inter implied by the idea of intermediality stands for and what it actually entails in the cinema The book offers in each of the individual chapters a cross section view of specific instances in which cinema seems to consciously position itself in between media and arts employing techniques that tap into the multimedial complexity of cinema and bring into play the tensions generated by media differences The introductory theoretical writings deal with the historiography of approaching intermedial phenomena in cinema presenting at the same time some of the possible gateways that can open up the cinematic image towards the perceptual frames of other media and arts The book also contains essays that examine more closely specific paradigms in the poetics of cinematic intermediality like the allure of painting in Hitchcock's films the exquisite ways of framing and unframing haptic imagery in Antonioni's works the narrative allegories of media differences the word and image plays and ekphrastic techniques in Jean Luc Godard's total cinema the fl neuristic intermedial gallery of moving images created by Jos Luis Guer n or the types of intermedial metalepses in Agn's Varda's cin criture From a theoretical vantage point these essays break with the tradition of thinking of intermediality in analogy with intertextuality and attempt a phenomenological redefinition of intermedial relations Moreover some of the analyses target films that expose the coexistence of the hypermediated experience of intermediality and the illusion of reality connecting the questions of intermediality both to the indexical nature of cinematic representation and to the specific ideological and cultural context of the films thus offering insights into a few questions regarding the politics of intermediality as well *Youth and Suicide in American Cinema* Alessandra Seggi, 2022-10-27 This book explores the depiction of suicide in American youth films from 1900 to 2019 Anchored in Sociology this multidisciplinary study investigates the causes and consequences of suicide and uncovers the socio cultural context for the development of youth film and suicide While such cinematic portrayals seem to privilege

external explanations of suicide versus internal or psychological ones overall they are neither rich nor sensitive Most are simplistic limited or at the very least unbalanced At times they are flatly controversial In light of this overall problematic depiction of suicide this book offers a proactive approach to empower young audiences a media literacy strategy to embrace while watching these films

Cinema and Intermediality (Second, Enlarged Edition) Ágnes Pethő, 2020-08-24 One of the most comprehensive books to focus on the relationship between cinema and the other arts this volume explores types and stylistic devices of intermediality through a wide range of case studies It addresses major theoretical issues and highlights the relevance of intermedial relations in film history mapping the theoretical field by outlining its main concepts and the research avenues pursued in the study of cinematic intermediality including the most recent approaches and methodologies It also presents some major templates of intermediality through various examples from world cinema including closer looks at films by auteurs like Alfred Hitchcock Michelangelo Antonioni Jean Luc Godard and Agn s Varda Supplemented by three new chapters dealing with phenomena which came into view since its first publication the revised and enlarged edition of this ground breaking volume will serve as a useful handbook to clarify key ideas and to offer insightful analyses

Public Rape Tanya Horeck, 2013-04-15 Second wave feminism fought to end the blanket silence shrouding rape and bring it to public attention Now feminist critics must confront a different issue In *Public Rape* Tanya Horeck considers the public investment in images of rape and the figure of the raped woman Introducing the idea of public rape Horeck looks at how images of rape serve as cultural fantasies of sexual racial and class difference Looking at rape in real life as well as in literature and films such as *The Accused* and *Boys Don t Cry* Horek reveals how representations of rape raise vital questions about the relationship between reality and fantasy and between violence and spectacle

Driscoll, 2011-06-01 What makes a film a teen film And why when it represents such powerful and enduring ideas about youth and adolescence is teen film usually viewed as culturally insignificant Teen film is usually discussed as a representation of the changing American teenager highlighting the institutions of high school and the nuclear family and experiments in sexual development and identity formation But not every film featuring these components is a teen film and not every teen film is American Arguing that teen film is always a story about becoming a citizen and a subject Teen Film presents a new history of the genre surveys the existing body of scholarship and introduces key critical tools for discussing teen film Surveying a wide range of films including The Wild One Heathers Akira and Donnie Darko the book's central focus is on what kind of adolescence teen film represents and on teen film's capacity to produce new and influential images of adolescence

Transgressing Women Jamaluddin Aziz, 2012-01-17 *Transgressing Women* focuses on the literary and cinematic representation of female characters in contemporary noir thrillers The book argues that as the genre has grown expanded and been subverted since its initial conception along with the changing definition of gender the representation of a female character has also inevitably gone through some dramatic changes So the book asks some important questions What links the female characters in canonical noir to their contemporary counterparts Is gender division still relevant in a text that transgresses gender boundaries What happens when it is the human body itself that betrays the traditional definition or constitution of a human being While many have written about the male protagonists and the femmes fatales in the noir genre little attention has been given to the other female characters who inhabit the noir world and are transgressors themselves The main concern of the book is to trace the transgressive female characters in contemporary noir thrillers both novels and films by engaging itself with some of the most topical debates within both post feminist and postmodernist theories The book is structured around two key concepts space and the body These temporal and spatial indicators are central in contemporary cultural theories such as postmodernism and post feminism along with other theorizations of gender and the noir genre This means that the analysis is drawn from the classical noir examples and will then arrive at the neo noir sub genre and then will move on to the most recent phenomenon
