New Frontiers of Land Control Nancy Peluso, Christian Lund, 2013-09-13 Questions about land control have invigorated thinkers in agrarian studies and economic history since the nineteenth century Exclusion alienation expropriation dispossession and violence animate histories of land use property rights and territories More recently agrarian environments have been transformed by processes of de agrarianization urbanization migration and new forms of primitive accumulation Even the classic agrarian question of how the social relations of agriculture will be influenced by capitalism has been reformulated at critical historical moments reviving or producing new debates around the importance of land control The authors in this volume focus on new frontiers of land control and their active creation These frontiers are sites where established power relationships are challenged by new enclosures and property regimes producing new social and environmental dynamics in their stead Contributors examine labor and production processes engaged by new configurations of actors new agrarian and environmental subjects and the networks connecting them and new legal and violent means of challenging established or imminent land controls Overall we find that land control still matters though in changed degrees and manners Land control will continue to inspire struggles for a long time This book was originally published as a special issue of the Journal of Peasant Studies

Nubian Pharaohs and Meroitic Kings NECIA DESIREE HARKLESS, 2006-08-30 NUBIAN PHARAOHS AND MEROITIC KINGS THE KINGDOM OF KUSH Necia Desiree Harkless has completed her odyssey of 24 years initiated by a poem that emerged in the odd moments of early morning and her studies as a Donovan Scholar at the University of Kentucky with Dr William Y Adams the leading Nubiologist of the world The awesome result is her attempt to map the cultural social political history of Nubia as a single people as actors on the world stage as they act out their destinies in the cradle of civilization The underlying purpose of her book is to reconstruct the collective efforts of the past and present Nubian campaigns and their collaborative scholarship so that the African American as well as all Americans can begin to understand the contributions of the civilization of Africa and

Asia as a continuous historical entity The history of the Kingdom of Kush begins with its earliest kingdom of Kerma in 2500 BC It continues with the conquest of Egypt by the Nubian Pharaohs in 750 BC reluctantly recognized as the Twenty fifth Dynasty of Egyptian Pharaohs They ruled as black pharaohs from their Kingdom at Napatan until they were forced one hundred years later to retreat to Napata by the Assyrians who assumed control of the Egyptians It was at Meroe the last empire of the Kush that forty generations of Meroitic kings and queens continued the Kingdom of Kush reaching monumental and dynastic heights Their symbiotic relationship with Egypt was over allowing them to develop their own indigenous culture with a language and script of their own Their architecture arts politics material and spiritual culture in the minds of many scholars surpassed that of Egypt Over two hundred pyramids have been investigated It is an epic that will be long remembered The dawn of Christianity in the Kingdom of Kush has been found in the treasure cove of the Frescoes of Faras

Flooded Pasts William Carruthers, 2022-12-15 Flooded Pasts examines a world famous yet critically underexamined event UNESCO's International Campaign to Save the Monuments of Nubia 1960-80 to show how the project its genealogy and its aftermath not only propelled archaeology into the postwar world but also helped to recolonize it In this book William Carruthers asks how postwar decolonization took shape and what role a colonial discipline like archaeology forged in the crucible of imperialism played as the new nations asserted themselves in the face of the global Cold War As the Aswan High Dam became the centerpiece of Gamal Abdel Nasser's Egyptian revolution the Nubian campaign sought to salvage and preserve ancient temples and archaeological sites from the new barrage's floodwaters Conducted in the neighboring regions of Egyptian and Sudanese Nubia the project built on years of Nubian archaeological work conducted under British occupation and influence During that process the campaign drew on the scientific racism that guided those earlier surveys helping to consign Nubians themselves to state led resettlement and modernization programs even as UNESCO created a picturesque archaeological landscape fit for global media and tourist consumption Flooded Pasts describes how colonial archaeological and anthropological practices and particularly their archival and documentary manifestations created an

ancient Nubia severed from the region's population. As a result, the Nubian campaign not only became fundamental to the creation of UNESCO's 1972 World Heritage Convention but also exposed questions about the goals of archaeology and heritage and whether the colonial origins of these fields will ever be overcome. *Water Management in New Zealand's Canterbury Region* Bryan R. Jenkins, 2018-01-06 The book is designed to achieve two major purposes. The first is to describe the developments in water management policy in the Canterbury Region of New Zealand. The strategic approach, the collaborative engagement and the nested adaptive systems approach represent a paradigm shift in water management in New Zealand. The second is to delineate the sustainability framework that underpins the Canterbury approach. The framework is based on the concept of developing sustainability strategies to address critical failure pathways. While the focus of the book is on Canterbury, comparative applications of the framework to issues in other parts of New Zealand and international issues are proposed. The book can be used in at least two ways. The first is the application of a sustainability framework to the management of water in the Canterbury region. The second is the exposition of a sustainability framework that can be applied to the management of water in a region with the application to Canterbury as an illustrative case study.

The refugee crises in the Middle East, Africa, Europe and South and East Asia are the most notable. Due to such crises, the refugee population has been a key challenge for humanity. It has also put a strain on many refugee-hosting countries, as most of the displaced populations are hosted in low and middle-income countries rather than wealthier countries. Force displacement creates challenges for the refugees and the host societies. *Displacement and Refugee Issues in South Asia: Uncovering the Contested Realities* brings out the cases of forcible displacement from five South Asian countries: Rohingya in Bangladesh, India and Nepal, Tamils in Sri Lanka, and the Afghan refugees in Afghanistan and Europe. Bulbul Siddiqi and contributors reveal that the refugee population in various South Asian countries have been living with vulnerabilities and uncertainty due to ineffective repatriation and the lack of dignified living conditions in host countries. It requires urgent support and initiatives from global and regional powers and international humanitarian organizations to ensure that the dignified lives of these vulnerable populations in different countries. **The National Agricultural Directory 2011**, 2010
