Navies and Foreign Policy (Routledge Revivals) Ken Booth, 2014-06-27. First published in 1977, this study offers a comprehensive, systematic and integrated survey of the important relationship between navies and the making and execution of foreign policy. Ken Booth explains the functions navies can perform in both war and peace, the influence they have on particular situations and how the relevant organisations can affect the character of naval actions. Ultimately, navies are regarded as indispensable instruments of the state by a number of countries, whilst all countries with a coast find some need to threaten a degree of force at sea. This book provides students and academics with the intellectual framework with which to assess the changing character of the navy.

Routledge Handbook of the International Relations of South Asia Āmit Ganguly, Frank O'Donnell, 2022-10-28. This handbook offers a comprehensive overview of the international relations of South Asia. South Asia as a region is increasingly assuming greater significance in global politics for a host of compelling reasons. This volume offers the most comprehensive collection of perspectives on the international politics of South Asia and it covers an extensive range of issues spanning from inter-state wars to migration in the region. Each contribution provides a careful discussion of the four major theoretical approaches to the study of international politics: Realism, Constructivism, Liberalism and Critical Theory. In turn, the chapters discuss the relevance of each approach to the issue area addressed in the book. The volume offers coverage of the key issues under four thematic sections: Theoretical Approaches to the Study of the International Relations of South Asia; Traditional and Emerging Security Issues in South Asia; The International Relations of South Asia; Cross-cutting Regional Issues. Further, every effort has been made in the chapters to discuss the origins, evolution and future direction of each issue. This book will be of much interest to

students of South Asian politics human security regional security and International Relations in general *Asian Geopolitics and the US-China Rivalry* Felix Heiduk, 2021-07-22 This book analyses the ways in which foreign policy actors in Asia have responded to the emerging great power conflict between the US and the People's Republic of China focusing on medium and small states across the Indo Pacific. The book offers a much needed counterpoint to existing analyses on the Indo Pacific and China's BRI and presents a new perspective by examining how great power politics are locally reinterpreted conditioned or at times even contested. It illustrates the policy level challenges which the US-China rivalry poses for established political and economic practices and outlines how these challenges can be best addressed by smaller states and their societies. A timely assessment of the power play in the Indo Pacific with the angle of Sino-American rivalry, this book makes an important contribution to the study of Political Science International Relations Asian Studies and Security Studies.
