Number In The Nursery And Reception:

Number in the Nursery and Reception Sue Gifford, Sheila Ebbutt, Patti Barber, 2004-11-16 Number in the Nursery and Reception is a resource for adults working with 3 5 year olds who wish to know how to provide help with learning about number Offering the entire number curriculum for nursery and reception this book provides integral assessment so that teachers know what to teach and when Divided into three distinct sections Counting Representing Numbers and Number Pattern and Problems each one offers a series of short chapters containing ideas for activities and further discussions

Number in the Nursery and Reception Sue Gifford, 1998 **The Foundation Stage Teacher in Action** Margaret Edgington, 2004-10-13 A fully revised edition of the author's best selling book this resource now includes an extended section on leadership and managing the foundation stage **Teaching and Learning Communication, Language and Literacy** Ann Browne, 2007-03-22 Teaching and Learning Communication Language and Literacy is a comprehensive guide to the teaching and learning of communication language and literacy in the foundation stage 3 5 years It draws on research findings and good practice to provide practical guidance about working with young children in nursery and reception classes The book examines how young children develop as learners and users of language and literacy and the contribution that home and school make to their learning It locates learning in a play based curriculum and provides a rationale for making play both a context and a resource for learning It also takes account of recent policy initiatives such as the Curriculum Guidance for the Foundation Stage the organization for literacy in reception classes and the foundation stage assessment profile Throughout the book a distinction is made between the organization and activities that are appropriate to nursery and reception children The book contains practical suggestions about activities and resources including ways of working with environmental print and found texts ICT TV and video as well as books The role of adults in supporting and extending learning is considered in detail *Conference on Emergency Problems of Children and Youth*, 1941 [Training to Teach in Primary Schools](#) Jane Medwell, 2015-03-19 Full of practical help and guidance this is a must have for primary trainees on school experience whether they are in a school based or university based teacher training programme It begins by helping trainees to plan their own journey through training and beyond Taking control of their own training in this way supports student teachers to approach the course with confidence and secure their first teaching job The book provides guidance on adapting to working in school observing planning and evaluating in school teaching on placement assessing monitoring and reporting on children's progress self evaluation and how to pre-empt and resolve issues securing the first teaching job and succeeding in the NQT year For student teachers the experience of school based training is exciting but also challenging this book supports them throughout and prepares them for the journey ahead Student feedback on this book Having been on a variety of teaching placements myself I know just how daunting and overwhelming experiences in school can be at times even with a supportive mentor by your side Hence I felt that this book can smooth out and rectify those worries one may face

during a school placement and offers the reader a realistic insight into school experiences In my opinion the most useful chapter by far is the Moving On chapter near the end of the book This explains how to conclude a school placement what to expect from an interview and even how to set out a CV for a teaching position This was not something I expected to find in this book however it was very much welcomed and is in fact a very important valuable part of the book This is the type of book you can buy on your very first day of teacher training and use well into your days as a newly qualified teacher Jasmin Primary Teacher Trainee University of Northampton

Young Children Reading Rachael Levy, 2011-06-22 Developing and supporting

literacy is an absolute priority for all early years settings and primary schools and something of a national concern By presenting extensive research evidence Rachael Levy shows how some of our tried and tested approaches to teaching reading may be counter productive and are causing some young children to lose confidence in their abilities as readers Through challenging accepted definitions and perspectives on reading this book encourages the reader to reflect critically on the current reading curriculum and to consider ways in which their own practice can be developed to match the changing literacy landscape of the 21st century Placing the emphasis on the voices of the children themselves the author looks at what it feels like to be a reader in the digital age children s perceptions of reading home and school reading reading in multidimensional forms the future teaching of reading Essential reading for all trainee and practising teachers this critical examination of a vital topic will support all those who are interested in the way we can help future generations to become literate This book will encourage researchers and practitioners alike to redefine their own views of literacy and situate reading literacy within the digital world in which young children now live *The American Cyclopaedia* George Ripley, Charles Anderson Dana, 1883 Teaching Assistant's Handbook: Primary Edition Janet Kay, 2005-12-08
