Book Makers Iain Stevenson, 2010 This is the only general survey of British publishing as a history over the twentieth
century It aims to look at how publishing companies and their owners and staffs were organised and how their output
responded to the wider social economic and cultural trends of the period It concentrates on the key figures like William
Heinemann Allen Lane Paul Hamlyn and Robert Maxwell but also looks at less well known but often very significant figures
whose contributions were also vital The study reveals a fascinating and dynamic industry that was influential not only for
literary history but also for the history of education and general cultural history at home and abroad Its spread is broad and
it considers not only fiction and trade publishing but also scholarly academic scientific children s technical medical and
professional publishing It reveals a fascinating tale of creative genius individual endeavour personal idiosyncrasy occasional
duplicity and bad behaviour and far sighted vision that over the century made British book publishing the best in the world
and still underlies its role today BLACKWELL S **Children's Software Revue**, 1993 The School Librarian, 2001
