Evidence-based Teaching Virginia R. Cassidy, 1999 Analyzes current educational research in subjects including the basics of evidence based teaching mentorship in nursing education the teaching of psychomotor nursing skills in simulated learning labs academic dishonesty and prediction of success on the registered nurse licensure examination

Ann *Teaching and Learning in Nursing* Gregor Stiglic, Majda Pajnkihar, Dominika Vrbnjak, 2017-05-17 A significant body of knowledge is the basis for a holistic caring and scientific evidence based nursing education in practice for professional development

Quality teaching leads to good learning and both aspects are two of the main issues of quality assurance in nursing education today

To begin with not all nursing students have the same levels of motivation or learning abilities

It is with cognisance of providing quality care for patients that the role of the nurse educator has to be to enhance nursing students learning using scientific evidence based teaching

Research around teaching and learning processes is an important part of the delivery of quality education which in turn impacts on students learning results and experiences thereby ensuring holistic biopsychosocial care to patients

The main aim of teaching and learning in nursing at all levels is to enhance the nurses contribution to assist the individuals families and communities in promoting and preserving health well being and to efficiently respond to illnesses

We hope that this book can be used as a resource to increase the body of knowledge in teaching and learning in nursing thereby enhancing the role and contribution of health care professionals to clinical practice
