Nursing For Wellness In Older Adults Theory And Practice:

Nursing for Wellness in Older Adults Carol A. Miller, 2004 Nursing for Wellness in Older Adults emphasizes health promotion in relation to the physiological and psychosocial aspects of aging The functional consequences theory which looks at how normal age related changes and risk factors intersect to impact functioning in older adults forms the framework for the book Assessment boxes summarize questions and techniques used to assess various aspects of the older adult s functioning Intervention boxes contain practical suggestions for maximizing function and promoting health Other features include progressive case studies lists of organizations to contact for additional information and for patient client teaching tools culture boxes and diversity notes which highlight culture race and gender differences and critical thinking exercises Additional resources are available at the Connection Website connection LWW com go miller

Nursing for Wellness in Older Adults Carol A. Miller, 2009 Now in its Fifth Edition this text provides a comprehensive and wellness oriented approach to the theory and practice of gerontologic nursing Organized around the author s unique functional consequences theory of gerontologic nursing the book explores normal age related changes and risk factors that often interfere with optimal health and functioning to effectively identify and teach health promotion interventions The author provides research based background information and a variety of practical assessment and intervention strategies for use in every clinical setting Highlights of this edition include expanded coverage of evidence based practice more first person stories new chapters and clinical tools such as assessment tools recommended by the Hartford Institute of Geriatric Nursing

Miller's Nursing for Wellness in Older Adults Carol A. Miller, Sharyn Hunter, 2012 A holistic view of the health care needs of older adults Nursing for Wellness in Older Adults uses a well being approach to the theory and practice of gerontological nursing that deals with both physiological and psychosocial aspects of aging The text includes progressive case studies in a variety of care settings to help students link theory to practice Australia and New Zealand cultural social and legislative considerations are included throughout
