Nursing Theories And Quality Of Care:

Nursing Theories and Quality of Care Hugh P. McKenna, 1994 Each nursing model incorporates specific views on four value laden components nursing person health environment In part two of the study an action research approach was used to implement the Human Needs Model HNM on a long stay psychiatry ward Within a broader quasi experimental design selected quality of care indicators were appraised before and after the implementation of the model These dependent variables were also monitored on a control ward Data were collected on both wards at one pretest and two posttest points using a triangulation of mostly quantitative research methods The research instruments Delphi Technique used emanated from the literature and the field work lasted nearly nine months

Nursing Theories and Models Hugh P. McKenna, 1997 Nursing theory is a major part of all nursing courses and nurses are encouraged to use theories in practice but it is not always easy for the student to make a real connection between the two Drawing on many years experience of teaching and research Hugh McKenna addresses the theory needs of both students and qualified staff He demystifies the confusing terminology associated with nursing theory and shows how all nurses can build theory from practice through reflection and analysis This text offers step by step guidelines on how to analyse concepts how to generate and select theory how to apply and test theory in practice Written in a friendly easy to read style Nursing Theories and Models puts forward realistic strategies for bridging the theory practice gap
