Nutritional Issues In Cancer Care:

Nutritional Issues in Cancer Care Valerie J. Kogut, Sandra L. Luthringer, 2014-05-14 A practical guide on nutrition for healthcare professionals involved in the day to day management of patients in all phases of cancer care including prevention treatment survivorship and palliative care Unlike other books on nutritional oncology that focus on the nutritional needs of patients during the various forms of treatment for cancer *Nutritional Issues in Cancer Care* is designed to provide site specific information regarding the disease common treatment modalities and nutrition implications Chapters detail nutritional issues in cancer prevention complementary and alternative medicine hospice and palliative care and more Specific types of cancer are also individually examined including breast colorectal esophageal and gastric head and neck lung pancreatic prostate and many more Unique to *Nutritional Issues in Cancer Care* each chapter in the book is authored by a registered nurse and a registered dietitian This book will provide a valuable insight

Nutritional Management of Cancer Treatment Effects Nagi B. Kumar, 2012-02-16 Malnutrition and its related symptoms are both frequent and deleterious effects of cancer treatment Despite the importance of targeted nutritional interventions in ameliorating these effects however publications providing up to date information on novel nutritional approaches and strategies are lacking This book is intended to fill the void by describing and evaluating in detail the nutritional strategies that may be employed to alleviate a wide variety of cancer treatment effects The guidance provided will help to improve the survival and quality of life of cancer patients and has the potential to dramatically affect how evidence based clinical practice is established and improved over the coming decade The author is a distinguished expert in the field who has more than 25 years of experience in oncology nutrition and has been involved in establishing and implementing a Clinical Nutrition Oncology Program

Examining Access to Nutrition Care in Outpatient Cancer Centers National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Food and Nutrition Board, 2016-09-26 An estimated 90 percent of oncology patients in the United States receive treatment in outpatient cancer centers and clinics This change from the older model of inpatient care has important implications for overall quality of care for oncology patients and nutritional care in particular Amidst growing concern about access to oncology nutrition services combined with growing recognition of the importance of providing nutritional care to optimize oncology treatment outcomes and maximize quality of life among both patients and survivors of cancer the National Academies of Sciences Engineering and Medicine convened a public workshop in March 2016 to explore evolving interactions between nutritional care cancer and health outcomes Participants explored how health outcomes and survival of cancer patients in outpatient cancer centers are affected by current standards for nutritional services nutritional interventions and benefits associated with oncology patient access to medical nutrition therapy They also studied the cost of outpatient nutritional care and assessed cost benefit relationships between oncology nutrition services and health outcomes and survival This publication summarizes the presentations and discussions from the workshop

Clinical Nutrition for Oncology Patients Mary Marian, Susan Roberts, 2010-10-25 Clinical Nutrition for Oncology Patients provides clinicians who interact with cancer survivors the information they need to help patients make informed choices and improve long term outcomes This comprehensive resource outlines nutritional management recommendations for care prior to during and after treatment and addresses specific nutritional needs and complementary therapies that may be of help to a patient This book is written by a variety of clinicians who not only care for cancer survivors and their caregivers but are also experts in the field of nutritional oncology Important Notice The digital edition of this book is missing some of the images or content found in the physical edition
